Ben Whittaker, Director of Facilities for the East Hartford Public Schools, reviewed the flooring abatement project at Stevens Alternative High School (Synergy) with the Committee. He indicated that this project is almost identical to the Hockanum school abatement that was recently completed.

In the Stevens abatement project, all the asbestos flooring will be replaced by vinyl tile flooring. In addition, any accessible asbestos located in the HVAC and plumbing systems will be removed. The anticipated start date is late June 2019 (after school is dismissed) and the anticipated completion date is late August 2019 (prior to the start of the school year).
