Special Permit Criteria Details

122 Park Ave, East Hartford, CT

- A. The location is large enough to conduct training, practice and games for the cricket, baseball, volley ball, lacrosse, badminton, etc. The owner is building one common restroom.
- B. The location site is 122 Park Ave, East Hartford, CT. It is around 9962 square feet in size. It would be used to coach, instruct, play, practice (& related activities) the game of cricket, baseball, volley ball, lacrosse, badminton, etc. for youth and adults. The parking space designated to the address is more than sufficient to accommodate the students. The hours of peak operation will usually be between 4pm and 9pm when most people are done with work and take up their hobby activity. Also this being a sport facility there will be less people during spring and summer times even during peak hours as everyone likes to play and practice outside.

C.

- 1. The intensity of operations will not affect the local traffic patters or parking situation as it is anticipated that about 6 students will be at the practice facility per one hour on an average and there will be a manager/coach/instructor who will be working with them.
- No external appearance of the building, the parking lot, or surrounding area will be altered, therefore no hindrance of development of the area shall be affected, nor value of property shall be impaired.
- 3. The external signs will match all the building signs on the site in size, color and design. No external lights will be used. The coaching/practice/games will happen inside the building and will not affect the neighboring business in any way.
- 4. The structure of the building will not be converted or altered.

D.

- 1. The design, location and activity will not adversely affect the safety in the streets or increase traffic. It is estimated that approximately 10 to 12 cars will be visiting the facility per 60 minutes of practice/coaching.
- 2. Parking spaces are adequate in numbers and no other business will be affected by the parking situation.
- 3. Streets and other right-of-way are in place at the site and will not need change

E.

- 1. The provision of water supply, sewage disposal, and storm water drainage are already in place, are up to all standards of the appropriate regulatory authority and will not change.
- 2. The proposed use and activity will provide easy accessibility for fire apparatus and police protection and will not hinder the provision of emergency services.
- F. No environmental impact is expected.
- G. Long term Viability: The business is running for more than 2 years in Cromwell and we foresee many years at this location
- H. No further development or alterations are expected upon opening of the facility. We do plan to have proper recycling process for what little waste a sports facility may produce.
