Public notice is hereby given that the Town Council of the Town of East Hartford, Connecticut, will hold a public hearing on Tuesday, September 20, 2022 at 7:15 p.m. in the Town Council Chambers, 740 Main Street, East Hartford, Connecticut, to hear public comment on the possible sale of 1437-1439 Main Street.

Jason Marshall
Town Council Clerk

Chair Kehoe called the public hearing to order at 7:16 pm.

The Chair shared that the purpose of this meeting was to hear public comment regarding the potential sale of the Town owned property at 1437-1439 Main Street to the owner of Eden's Florist, located next door at 1429 Main Street. The Town acquired the property as the result of a fire that destroyed the building on the property and as a result the previous owners quitclaimed the deed over to the Town. Currently the property does not hold any value of significance to the town.

The owner of Eden's Florist has proposed acquiring the property for \$10,000 to expand their current operation.

No one came forward to speak.

COMMUNICATIONS AND PETITIONS

Town Hall Renovation Project Update

Marilyn Cruz-Aponte, Director of Public Works and Tom Baptist, Project Manager-Sustainability, presented a brief video detailing current conditions of Town Hall.

Mr. Baptist provided the results of a cost management analysis as provided by Downes Construction with a revised project budget based on the report’s recommendations. The total cost of the project is projected at \$21.6 Million, revised from the initial bid amount of \$23.3 Million. The savings has been generated by revising the required work on specific elements of the project. All items deemed by the project engineers as “absolutely necessary” components are still included, as well as the replacement of aged electrical wiring; the renovation of public bathrooms, strategic relocation of departments within Town Hall, and the permanent relocation of the Social Services Department to the Community Cultural Center. Items removed from the project include the replacement of the air handler, duct work and lighting in Town Council Chambers, the renovation of the staff kitchen and bathrooms in the basement. Additional savings is provided by value engineering of individual bids.

Jeff Anderson, Vice President of Preconstruction for Downes Construction and Mark Allyn, Senior Vice President of BVH Integrated Services and project engineer, discussed the potential risks and additional costs that could be incurred if the project is delayed further based on market projections.

The Council discussed the repercussions of moving forward with the Town Hall project vs. addressing other needs for the Town, specifically the issues at Public Works facilities that are to be presented later in the meeting. Director Cruz-Aponte confirmed that a full assessment of town facilities is in progress, with the goal of prioritizing needs. Such assessment will be presented to the Town Council at a subsequent meeting.

Mr. Baptist confirmed that recommended items removed from the project, such as the upgrades to Council Chambers could be addressed at a later date without an adverse effect on the rest of the building’s operations.

Melissa McCaw, Finance Director, stated that currently the Town has \$16.9 million in authorizations and allocations available for this project. This includes the remaining available funds of \$11.9 million from existing 2018 and 2020 bond authorizations for public building renovations and the current ARPA allocation of \$5 million. The Director provided a summary of proposed funding sources to support the revised total project cost

of \$21.6 million. The recommendation includes increasing the ARPA allocation to \$7.6 million, primarily leveraging the unallocated balance of \$1.8 million previously held for the North End Community Center renovation project that did not move forward and other smaller allocations. The Director has proposed additional funding of \$2 million from the Town's General Fund, with \$1.4 million pulled from current year excess municipal aid from the state. The remaining \$600,000 would come from the establishment of a capital reserve fund to be funded with \$200,000 annually from the general budget appropriation over the next three years.

Presentation by Department of Public Works Re: Facilities Conditions

Director Cruz-Aponte introduced John Comeau, Architect, Weston and Sampson Engineers who shared a presentation of the current work environment and conditions at the Public Works facility on Ecology Drive. Based on the findings of the report provided, a number of buildings at the facility are in disrepair and require immediate attention to be brought up to code. The Director is requesting action taken in phases, with short term projects to address substandard sanitary conditions and immediate employee safety concerns while more permanent accommodations and a plan for funding can be developed. These projects include the temporary lease of a more adequate facility to use as a Fleet Maintenance Shop and the rental of two modular buildings to serve as facilities for department employees.

The Council acknowledged the need to upgrade facilities to meet the concerns of staff and will consider the proposal. Councillors requested a comparison of the costs of purchasing rather than leasing modular bathroom facilities, combining town and board of education vehicle maintenance services and whether it is more cost effective to outsource maintenance services.

TOWN OF EAST HARTFORD OFFICE OF THE MAYOR

DATE: September 23rd, 2022
TO: Richard F. Kehoe, Chair
FROM: Michael P. Walsh, Mayor
RE: Ordinance 10-3(c) Disposition of obsolete or broken Town-Owned Equipment.

Pursuant to Section 10-3 (c), this memo serves as a notification of intent by the Mayor to dispose of the following Town-Owned equipment, certified by the Finance Director to be unsuitable for Town use.

- Please see the enclosed memo from Officer Weglarz of the Firearms Division regarding the disposal of obsolete Tasers.

The above Town owned equipment has been offered to all Departments via email, in accordance with Ordinance 10-3(c). There is no use for this equipment within other departments.

Please place this item on the Town Council agenda as a communication for the October 4th, 2022 meeting.

C: S. Sansom, Police Chief
M. McCaw, Finance Director
C. Martin, Chief of Staff

September 14, 2022

Currently, the East Hartford Police Department issues its uniformed patrol officers the Axon "Taser 7" less lethal weapon system. The "Taser 7" is the most current model designed by Axon and utilizes state of the art pulse technology which is more effective when an officer chooses to use less lethal force options. This is not only a benefit to the officer but also the subject it is deployed on when appropriate.

Another benefit of the Taser 7 is the ease of evidence collection and the software updates from Axon. When a Taser 7 is either activated or discharged, that information is uploaded into "Evidence.com" where it is stored and utilized for "Use of Force" tracking and review by O.P.S. panel. The battery pack (or DPM) is required by department General Order to be placed into the docking station after deployment or on assigned common days.

We currently have dozens of old/non-functioning X26/X26P Tasers and cartridges that utilizes older, less effective technology and also is not user friendly when attempting to track their usage or keeping current software up to date. Also when training the department, ALL officers can receive the same training for the "Taser 7" rather than run two different training classes. This alone will save the department money and the additional resources needed keep the older Taser system functional.

I have located a company that will purchase all of the older Taser X26/X26P's, along with their cartridges. I would like to sell this older, outdated equipment and use that money to purchase Taser 7's for the officers who currently do not have them.

If you have any questions, please feel free to contact me directly.

Thanks,

Mike Weglarz

RE: **Town Hall Renovation Update**

As you are aware, the Department of Public Works Director Marilynn Cruz Aponte and Project Manager Tom Baptist have provided an update on the estimated Total Project Cost for the Town Hall Renovation for the Town Council meeting on September 20, 2022. Based on cost management and value engineering, the Project Total is estimated at \$21.6 million. This represents a \$1.75M reduction since the original bids due to scope changes and overall cost reduction.

The Town currently has \$16.9 million in authorizations and allocations available for this project. This includes the remaining available funds of \$11.9 million for existing 2018 and 2020 bond authorizations and the current ARPA allocation of \$5 million.

The table below summarizes the proposed funding sources to support the revised Total Project Cost of \$21.6 million:

Allocation/Authorization Description	Allocation Amount	Subtotal	Category
Town Hall Renovation - GO Bond Authorization	2.900

This memo serves as a communication of the proposed funding plan to supplement the materials as Council weighs a final decision regarding the Town Hall Renovation project. If Town Council votes to proceed with the Town Hall Renovation project, it is requested that Council take action at the October 4th meeting to approve the funding plan and changes to the ARPA allocations accordingly. In addition, it is noted that this funding plan includes GO Bonding requirements of \$9 million for the Town Hall Renovation project.

The debt service impact of the estimated cashflow requirements for GO bonding was presented in the Bond Referendum Council agenda item. This is subject to change based on timing of expenditures. A copy of the presentation is attached hereto. To address the potential peaks in debt service for fiscal diligence and sustainability, it is recommended that the Town dedicate the annual excess municipal aid, estimated at up to \$1.4 million per year, to partially offset debt service increases and also evaluate planned capital spending to lower the debt issuance requirements in 2023 and 2024.

Should you have any further questions, please do not hesitate to contact me.

Other Considerations and Conclusion

- Use of a hybrid pay-as-you-go and bonding funding source in peak years.
- 15 year amortization schedule for Roads in 2023 or 2024 issuance given the useful life of the asset. Not a permanent change.
- Consider rate of spend and adjust if necessary.
- Increasing interest rate environment – consistent interest rate increases expected by the federal reserve and reflected in projections.
- 2023 Issuance is an opportunity to leverage lower interest rate. Maximize lower cost of debt service on our community.

Alternative Scenario: 15 Year Road Bonds Only in 2023

- Tradeoff: Increases overall debt service cost but provides a smoother debt schedule to soften mill rate impact.

Conclusion

- The two Bond Referendum questions are time-sensitive to ensure adequate authorization to maintain roads and procure vehicles/equipment for Fire.
- The increased investments in Roads, Town Hall and other assets will likely yield a faster rate of spend.
- Important to recognize that the necessary timing of debt issuances may not align to when East Hartford is experiencing debt service schedule decreases.
- Recognizing spending timing, planning strategically and maximizing options for the increased debt service requirements provides a pathway for building a sustainable budget with desirable community outcomes.

THANK YOU!

RE: Threads of Assumption project – Bid Waiver Approval Request

In accordance with Section 10-7(c) of the Town of East Hartford Code of Ordinances, I respectfully request that the Town Council waive the bidding procedures required by Section 10-7(b) and allow the Town to contract with MF Dynamics to implement the Threads of Assumption project, a dynamic art installation and performance examining gender bias in the community, for the sum of \$36,000, the same being in the best interests of the Town given the unique nature of the project, the exclusivity of the project to MF Dynamics, the emphasis on community participation, and the limited number of organizations currently doing interactive work of this type.

Artists Maria Finkelmeier, Martha Rettig, U-Meleni Mhlaba-Adebo, and Sofie Hodara, collect personal stories about gender-based harm and look for patterns and narratives within the submissions. These stories are transformed into an immersive art exhibition with digital visualizations, musical composition, spoken-word poetry, weaving, and live performance. Through this process, we see, hear, and feel the collective impact of gender-based harm.

At East Hartford Public Library, the project will begin with collecting community stories. The artists will host gatherings on November 16-17, 2022 and February 15-16, 2023 at the library to gather spoken and written experiences of gender bias from residents of East Hartford. These experiences will drive the art created for the final exhibition and performance in April 2023.

This is the third iteration of Threads of Assumption. Most recently, the project was shown at Installation Space, North Adams, MA, June through July 2022. The work premiered at the Goethe Institute, Boston's Studio 170, in June 2021, and was made possible (in part) by a Live Arts Boston grant from The Boston Foundation.

It is an incredible opportunity for East Hartford residents to contribute to the creation of the next "iteration" of this groundbreaking multimedia project. Given the unique nature of the project, I appreciate your consideration of this request for a bid waiver. Should you have any questions or concerns regarding the above noted, please do not hesitate to contact me.

THREADS OF ASSUMPTION

An interactive installation and performance by artists Maria Finkelmeier, Sofie Hodara, U-Meleni Mhlaba-Adebo, & Martha Rettig

Our work responds to real stories about experienced bias, gathered on a virtual, anonymous conversation platform and analyzed by artificial intelligence (AI). The resulting exhibition is a visual, sonic, and tactile representation of human truths and errors. The project asks us to reconsider our assumptions surrounding bias and what we accept as normal. How can we expect machines to extract meaning from what we don't yet understand?

Data was collected from 22 sourced conversations. Each conversation was analyzed for emotional content and thematic language and transformed, by AI, into datasets. As artists, the concept of weaving this rigid data and the human experience became essential at every turn, similar to the way tactile weavings are made, with a tense warp and threaded weft.

The exhibition is centered around an interactive, room-scale loom. The loom is surrounded by our artistic interpretations of the data, in the form of hanging weavings, video projections, and recordings of spoken word poetry and musical compositions.

The data we received did not teach us anything new. It simply reinforced our society's acceptance of harmful structures and individual's perpetuation of rigid assumptions.

The work premiered at the Goethe Institute, Boston's Studio 170 in June 2021 and was made possible (in part) by a Live Arts Boston grant from The Boston Foundation. Additional thanks to Bianca Mauro of BRM Production Management, J. Cottle, The Loop Lab, Aram Boghosian, Adam DeTour, Gabi Ammirat.

Re: Communication of YWCA 50/50 campaign

Dear Mr. Kehoe & Mr. Walsh:

The town of East Hartford will be participating in the YWCA 50/50 campaign, demonstrating our commitment to developing inclusive boards and commissions. We are excited to begin this work alongside the City of Hartford and the Town of Bloomfield.

During the 2021 Legislative Session, the Connecticut General Assembly enacted Public Act No. 21-35, declaring racism a public health crisis, and Public Act No. 21-49, which enacted efforts to diversify state boards and commissions. YWCA Hartford Region was an active advocate for the passage of both laws, standing on its mission to eliminate racism and empower women. The 50/50 Campaign galvanizes a local response to deepening this work.

The 50/50 Campaign seeks to increase civic participation amongst marginalized communities and equitable racial and gender representation on municipal boards and commissions.

- 50 percent of our effort is in partnership with Hartford Region municipalities to make focused efforts to reform policies, processes, and practices to promote equitable racial and gender representation on municipal boards and commissions, especially those focusing on the quality of life issues for all residents.

- 50 percent of our effort engages and educates community members on the roles, authority, and impact of boards and commissions on their community while using community voice to inform municipalities of the community's perceived barriers to participation.

The MOA is non-binding, and both parties reserve the right to vary from the approach, and obligations, set forth herein; the agreement will remain active for 12 months from the date of signing this agreement and is renewable if needed to complete the process by mutual written agreement of the Parties.

Thank you

Tyron V. Harris-

RE: Referral to Town Council: Request to enter into a Letter of Commitment with the CT State Library and Libraries Without Borders US concerning a Community Accelerator Pilot Program.

I am respectfully requesting the Town Council to approve the East Hartford Public Library to enter into a Letter of Commitment with the Connecticut State Library for the Community Accelerator Pilot Program.

The Community Accelerator Pilot program will create pop-up libraries in selected Connecticut communities through a partnership between the Connecticut State Library and Libraries Without Borders. These temporary pop-up libraries will be located in community spaces such as barbershops, laundromats, and apartment complex common rooms, and will be run by Libraries Without Borders with support from local public library staff and community volunteers. The program will run for 12 – 18 months. The goal is to generate interest in public libraries in underserved communities and neighborhoods. This exciting and innovative no-cost program will enhance library services in East Hartford, one of the communities selected for the Pilot Program.

Section 3.4 of the Town Charter requires Council approval of contracts with the State. Accordingly, I ask that you forward this to the Town Council for inclusion on the October 4 meeting agenda.

Please note that the Letter of Commitment was reviewed by Town of East Hartford Corporation Council prior to submitting for Town Council approval.

The Community Accelerator Pilot Program, a collaboration between the CT State Library, Libraries without Borders, and Selected Connecticut Public Libraries

Letter of Commitment

[Your Library Name] _____ acknowledges that the Community Accelerator Pilot Program, a collaboration between the Division of Library Development (DLD) of the CT State Library and Libraries Without Borders US, is a 12–18-month program, with the following general cycle elements:

1. Targeting and Assessment: 2 months

LWB US and DLD will work with library leadership to canvass existing quantitative and qualitative assessments and work with community leaders and organizations to determine specific literacy and information needs among underserved or unserved communities.

2. Community Co-design: 4-6 months

LWB US and DLD will work with the local library staff and community leaders to identify and form an informal planning committee charged with helping to locate, plan, bring partners to, and ultimately help promote temporary library spaces within the community. The process will involve selecting high-traffic, trusted community spaces or institutions in which to locate pop-up programming and community-based service partners.

3. Training: 2 months

LWB US and DLD will work with the library to identify current capacity and skills, confidence, and training gaps. The LWB team of community organizers and trainers will work with library leadership to develop a community outreach curriculum with in-person and virtual training for key existing library staff.

4. Activation: 2 months

LWB US and DLD will install pop-up libraries in nontraditional places. We will work with library staff to select services and resources which may include but are not limited to age, culture, and language-appropriate books, periodicals, and reading materials; digital devices, hotspots, and broadband internet access; take-and-go resources and in-person services addressed to multiple forms of literacy.

5. Opening and Celebration: 2-6 months

Temporary spaces create an opportunity to transform relationships, but the financial limits do not allow for permanent activation. Each project is designed for a specific time, which is clearly and regularly communicated to users. As the end date approaches, focus is placed on helping users understand, feel welcome at,

and connected to their permanent library. This may include card registration days and/or “field trips” to the local library. The closure of the site is treated as a day of celebration that helps to solidify relationships and open pathways to ongoing library usage.

6. Wrap-up and next steps: 1 month

LWB US and DLD will conduct a post-project evaluation in collaboration with library staff, including recommendations for sustaining community engagement, documentation of our shared work, ongoing evaluation tools, and finalized curriculum.

[Your Library Name] _____ agrees that measurable goals of the pilot program, while yet to be detailed via community discussion, will include:

- Increased usage of library services by previously underserved or unserved communities measured by metrics co-created by LWB US and library leadership. They may include but are not limited to library utilization, pop-up visits, and library card registration.
- Deepened relationships with community partner organizations, institutions, and leaders from previously underserved or unserved communities.
- Confidence and capacity among key staff for ongoing outreach efforts to connect underserved communities with library resources.
- Increased access to information resources including but not limited to digital literacy and digital devices; culturally and linguistically appropriate books, periodicals, and reading materials; resources addressing other literacies: English, health, civic, legal, and financial.

We agree to become part of this collaboration with community organizations under the guidance of Libraries without Borders and a consultant from the Division of Library Development of the CT State Library. We are committed to participating in good faith, seeing the pilot through the proposed cycle, and reporting all data and responses to the whole state team for analysis and a report to support replication of this community outreach model.

U DRIVE. U TEXT. U PAY. **Fact Sheet — Enforcement**

Texting and other forms of messaging while driving are real dangers on America's roads. While distracted driving can take many other forms, these texting behaviors have become one of the most pervasive forms of distracted driving.

Staggering Statistics

- According to NHTSA, between 2012 and 2019, approximately 26,000 people died in crashes involving a distracted driver. While fatalities from motor-vehicle crashes decreased slightly from 2018, distraction-related fatalities increased by 10%.
- NHTSA reports that the number of deaths linked to driver distraction was 3,142 nationwide, or almost 9% of all fatalities in 2019. This represents a 10% increase over the year 2018, or 284 more fatalities. The distraction figure was the largest increase in causes of traffic deaths reported for 2019.
- Distracted-driving crashes accounted for 15% of injury crashes and 14% of all police-reported motor vehicle traffic crashes in 2019.
- Texting while driving has become an especially problematic trend among younger drivers. In fact, 9% of drivers 15 to 19 years old involved in 2019 fatal crashes were reported as distracted. This age group has the largest proportion of drivers who were distracted at the time of the fatal crashes.
- According to NHTSA research from 2017, young drivers 16 to 24 years old have been observed using handheld electronic devices while driving at higher rates than older drivers have since 2007.
- In 2019, there were 566 nonoccupants (pedestrians, bicyclists, and others) killed in crashes involving a distracted driver.

Safety Tips for Driving

- If you are expecting a text message or need to send one, pull over and park your car in a safe location. Once you are safely off the road and parked, it is safe to text.
- Designate your passenger as your "designated texter." Allow them access to your phone to respond to calls or messages.
- Do not engage in social media scrolling or messaging while driving.
- Struggling to not text and drive? Activate your phone's "Do Not Disturb" feature, or put your cell phone in the trunk, glove box, or back seat of your vehicle until you arrive at your destination.

Put Your Phone Away or Pay

- When you get behind the wheel, be an example to your family and friends by putting your phone away. Just because other people do it doesn't mean texting and driving is

“normal” behavior. Instead, it’s a selfish, deadly and, oftentimes, illegal activity that could kill you, a loved one, a friend, or a stranger.

- In 48 states, the District of Columbia, Puerto Rico, Guam, and the U.S. Virgin Islands, texting while driving is an illegal, ticketable offense. You could end up paying a hefty fine, and get points on your license.
- If you see someone texting while driving, speak up. If your friends text while driving, tell them to stop. Listen to your passengers: If they catch you texting while driving and tell you to put your phone away, put it down.
- Remember, when you get behind the wheel, put your phone away. *U Drive. U Text. U Pay.*

I wanted to point out to Mack that Parade is listed on the COI, but crossed out on application we received. Also, to Laurence that they have Health Booth listed on the COI.

Hi Margaret,

I was asked the following questions, please answer:

1. Inspections and Permits Dept. wants to know if the bounce house needs power and if so where will it get plugged it into?

The bounce house will be plugged into the church outlet inside.

2. Corp Counsel asked for me to confirm the Church's true legal name. Is it Charity Seventh-Day Adventist Church? The application has Charity SDA Church, if it indeed is Charity Seventh-Day Adventist Church please revised the application on question number 3 where you have Charity SDA Church and on page 3 near the signature part where it says Charity SDA Church and change it to Charity Seventh-Day Adventist Church. Please ensure that what the legal name of your church is, is both on the application and on your Certificate of Insurance.

The name on the Certificate of insurance is Charity SDA Church -therefore no change is needed

If I get any other questions or concerns I will contact you, in the meantime, please update the application if indeed the legal name is something other than Charity SDA Church and resubmit to me asap so I can get that approved.

I will forward the copy of the insurance certificate to you ..

Thank you.

our reason for being interested in serving our Town in this capacity

I love East Hartford. My mother, children and I were born and raised here. I am a member of The Senior Center, serving on the Advisory Board. I attended some Commission meetings and volunteered for the Senior Picnic. I found the Commission's efforts to enhance the lives of our Seniors is something I want to be part of. I'd also like to work to expand their responsibilities.

List of qualifications that you believe will be an asset to the board/commission on which you wish to serve:

I am a senior. I have a very good relationship with the staff and membership of the Sr.Center. Perhaps because I am elderly, was hearing impaired, have had mobility issues and care for a spouse with severe medical issues, I feel I understand and empathize with other seniors faced with many of these issues. I have worked with the Mayor, Town Council, State and U.S. Representatives, the DOT and my neighbors to try to minimize the adverse effects of Rt. 2

Interest statement:

INTEREST STATEMENT.

Culture and art are central to a cohesive society. The more interests people have in common with one another, the more community members will look out for their neighbors. Art is a place of free expression that welcomes all types of people. Art is a way to foster communication and empathy. Participating in and attending community cultural and art events encourages neighbors to meet one another. I am interested in doing whatever I can do to create community. As an art enthusiast and parent to budding artists, the Commission of Culture and Fine Arts seems like the perfect niche for me.

List of qualifications that you believe will be an asset to the board/commission on which you wish to serve:

I have participated with East Hartford Summer Youth Festival for the past seven years. (And also way back in the 80s/90s!) I was active in Circle of Life and helped produce the Holiday shows and other events. I have also performed with Cue & Curtain and regularly share my poetry through the East Hartford Public Library readings. I am a bit of a people person and know many local artists. I am well versed in social media and virtual communications. I am involved in the community in a variety of other ways, as well. I volunteer with Protectors of Animals and participate in the library Community Conversations, as well as many other library events. I am the Parent Liason of my childrens' School Governance Council. But, most importantly, I believe in community.
