Douglas R. Wilson, P.E.
Town Engineer
Engineering Division
740 Main Street
East Hartford, CT 06108

RE: Public Safety Complex Impound Garage
13 School Street
East Hartford, CT 06108
Town Bid No. 22-01

Dear Mr. Wilson

We have reviewed the three low "Formal Bid Proposals" your Purchasing Agent sent to us via e-mail. Most importantly, Orlando Annulli & Sons who was the low bid at the contract price of \$1,338,900.00. Their proposal in general seems to be in order and contains the information required by the Town of East Hartford's bidding procedures to the best of our knowledge.

All information has been documented within the Connecticut Contract Compliance Regulations Report. In addition, their listing of past projects and expertise in prefabricated building structures is impressive. We have spoken to several references that were provided by Orlando Annulli and Sons in their General Bid submission, all of which have spoken very highly of this General Contractors past work. We have no reservations regarding the Town of East Hartford entering contract with this company.

Enrico J. Chiarillo, AIA
Director of Contract Administration
