

Town of East Hartford

ADDENDUM N^o. 01

**On-Call Tree Maintenance Services
Bid No. 24-21**

Issued January 31, 2024

The following answers are provided to question received. There are no other revisions to the Bid Documents included in Addendum N^o. 01 for the On-Call Tree Maintenance Services (Bid No. 24-21).

QUESTION 1: Is the licensed arborist required to be on-site or just on staff?

The awarded companies will need to have a licensed arborist on staff, they do not need to be on-site. If/when there is resident concern about tree trimming or removal, the arborist must be available for consultation regarding tree health or safety.

QUESTION 2: What are the minimum requirements/specifications for the bucket truck and chipper?

Awarded companies shall determine the size and specification of equipment needed for each on-call activity. Equipment must be appropriately sized so that the operation is safe for workers, Town staff, residents and the traveling public. If an awarded company does not own a specific piece of equipment necessary for an operation, they can lease that equipment.
