MARCIA A. LECLERC, MAYOR

Finance Department

December 19, 2018

Honorable Mayor Marcia A. Leclerc, Members of the Town Council Town of East Hartford East Hartford, Connecticut

I am pleased to submit the Comprehensive Annual Financial Report (CAFR) of the Town of East Hartford, Connecticut (the Town) for the fiscal year ended June 30, 2018. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the Town. To the best of our knowledge and belief, the enclosed data are accurate in all material respects, and are reported in a manner to present fairly the financial position and results of operations of the Town of East Hartford. All disclosures necessary to enable the reader to gain an understanding of the government's financial activities have been included.

The Town is required to undergo an annual single audit in conformity with the provisions of the Federal Single Audit Act and Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Guidance, Cost Principles, and Audit Requirements for Federal Awards. Information related to this single audit is issued as a separate report.

The State of Connecticut has enacted legislation referred to as the *State Single Audit Act*. The Act requires financial and compliance audits of State Assistance received by municipalities. Information related to this single audit is issued as a separate report.

This report includes all funds of the Town of East Hartford. The Town provides a full range of services including public safety, street maintenance and sanitation, health and human services, public parks and recreation, library, education, culture, public improvements, planning, zoning and general administrative services.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditors' report. The MD&A provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Town

The Town of East Hartford was incorporated in 1783. Covering an area of 18.7 square miles, the Town borders on the City of Hartford on the west, the Towns of Glastonbury and Wethersfield on the south, the Town of Manchester on the east, and the Town of South Windsor on the north. The Town has a Strong Mayor/Council form of government. The Town Council is the governing body, and the Mayor is the Chief Executive Officer. Nine councilors are elected at large in odd-numbered years for two-year terms. The nine members of the Board of Education are elected to overlapping four-year terms as provided by the Town Charter. The Board of Education appoints the Superintendent of Schools.

The Local Economy and the Employment Market

The Town of East Hartford is the home of over 75 diversified manufacturing plants and 1,800 businesses lending to the relative stability of the local economy. The Town continues to work to diversify its employment base by adding businesses and jobs, primarily in the service industry sector.

The Town serves as the corporate and general headquarters for the Pratt & Whitney Division of United Technologies Corporation (UTC), which employs 30,000 people worldwide and 8,000 people in East Hartford. As part of a \$400 million economic development incentive package awarded by the State of Connecticut to Pratt and Whitney and subsidiaries in 2015, a new headquarters and Engineering Building was completed in early 2018 recommitting Pratt and Whitney to East Hartford for a least another 15 years.

UTC has committed to investing an additional \$115 million in research facilities at their Rentschler Field campus in East Hartford, including an Additive Manufacturing Center of Excellence and an Engine Compressor Research Facility. The company intends to create 9,000 new jobs in Connecticut over the next five years.

With the withdrawal of the Horizon Property Group from the planned construction of the Outlet Mall on Rentschler Field, the Town maintains an on-going dialogue with UTC to determine future development opportunities for the property, which is also home to a Cabela's store and the University of Connecticut's football stadium. Rentschler Field, 920 acres, a former airfield servicing Pratt & Whitney Aircraft, has been rededicated as a mixed-used development.

East Hartford's central location makes it very attractive to manufacturers, many of whom have created or expanded a presence in the town in recent years. These include National Sign, United Steel, a regional Coca-Cola bottler and Parker Hannifin's filtration division. As the home to Pratt & Whitney and the Connecticut Center for Advanced Technology, the Town is an ideal location for aircraft supply chain manufacturers such as ATI Metals.

The Town also enjoys an expanding footprint from Goodwin College, which is a private, nonprofit, four-year college located along the Connecticut River and Route 2. They are planning ambitious improvements including a marina on the river, a 66-room boutique hotel, a conference center, retail and restaurant space, and 270 residential units. This will create a riverfront destination for Goodwin students, East Hartford residents, and visitors to the area. Zoning regulations for a campus district are under review to facilitate this development.

Goodwin College is also home to two magnet schools, an elementary school, and a high school, all specializing in STEM curriculum. Goodwin is currently constructing a \$10.5 million Manufacturing Annex to complement the Business and Manufacturing Center they opened in 2015. They will use these facilities to train and educate students with the advanced skills that Connecticut manufacturers require for today's high-tech jobs.

Retail also has a strong presence in town. The Putnam Bridge Plaza, anchored by ShopRite, is a local shopping hub and recently added an AutoZone location. Nearby, the Porter Brook Plaza has been completely renovated and added new tenants. A new Dunkin' Donuts is under construction on Main Street, and an Irving Oil filling station and store will be constructed nearby on Silver Lane in the spring of 2019. Dollar General added a Silver Lane location in 2017, and neighboring Aldi, Burger King, and Taco Bell locations were all recently renovated.

The Town's Commercial Facade Improvement Program is currently working to upgrade the appearance of the heart of the downtown commercial district. East Hartford strives to be a business-friendly community and to make starting and growing a business in town as straightforward as possible. Land-Use Group meetings are available free of charge to businesspeople to discuss their plans and understand applicable regulations as they begin their planning. Zoning applications are now accepted

digitally, and parking requirements are being simplified. Zoning regulations are consistently under review to advance the Plan of Conservation and Development and to eliminate unnecessary burdens for businesses.

The Town partners with the Capital Region Development Authority for state funding and advisory services on many redevelopment efforts. CRDA is administering state funding for Silver Lane corridor redevelopment (\$12 million), a new parking garage at the successful Founder's Plaza business park (\$500,000), and infrastructure improvements at Goodwin College (\$4 million).

Another Development Department focus has been on revitalizing the Silver Lane corridor, a commercial area with significant redevelopment potential. The Town recently convened the Silver Lane Advisory Committee, which is crafting a comprehensive redevelopment plan for the area. State and federal brownfields grants are contributing to these efforts.

Long-Term Financial Planning

The Town follows a prudent path when issuing debt by retiring most debt over a ten-year life. When budgeting for pension purposes, the Town always contributes the ARC (Annual Required Contribution) in order to maintain a stable pension fund.

Relevant Financial Policies

The Town of East Hartford currently maintains a fund balance of \$24.6 million of which \$20.1 million is unassigned in its General Fund. As a percentage of the current adopted budget, East Hartford maintains 13.2% in total reserves and 10.8% in unassigned reserves.

The Town receives approximately one-third of budgeted revenues from the State of Connecticut. The vast majority of the State revenues that come to the Town are in the form of Educational Cost Sharing Grants (ECS) which provide a direct subsidy to the local education system.

Financial Information

The Finance Department includes Accounting, Tax Collection, Tax Assessment, Purchasing, Information Technology and Risk Management. In developing and evaluating the Town's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding (1) the safeguarding of assets against loss from unauthorized use or disposition, and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits to be derived, and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the Town's internal accounting controls adequately safeguard assets and provide reasonable assurance to record transactions.

Budgetary Controls

The accounts of the Town are organized in funds and accounted for on the Town's financial management system. Each fund operates with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. Budgetary control of disbursements and encumbrances against appropriations is maintained by department, division or major activity. The Town also maintains an encumbrance accounting system as one technique towards accomplishing budgetary control.

The Town Charter prescribes the following as the budgetary sequence and time schedule:

• The Town's departments and commissions receive their budget preparation forms in December.

- In early January the departments and commissions submit budgets to the Finance Department for compilation. The Finance Department also submits an assembled budget to the Mayor.
- During the month of January, the Mayor and Finance Director review the budget requests with the departments and commissions. The current year revenues and expenditures are also reviewed and the Board of Education requested budget is forwarded to the Mayor.
- By February 23rd, the Mayor must submit to the Town Council revenue and expenditure estimates for the ensuing fiscal year as the Mayor's Recommended Budget. In the later part of February and the beginning of March, the Town Council holds meetings with the Mayor, Finance Director and all departments and commissions to review recommended budgets.
- During the first week of March, the Town Council holds meetings with the Board of Education to review their budgets. By March 11th, the Town Council must conduct one or more public hearings to review the recommended budget. Within 10 days of the final public hearing, the Town Council must adopt an Approved Budget for the fiscal year which begins July 1 and sets the tax rate for fiscal year which begins July 1.
- In accordance with the recommendations of the Charter Revision Commission, a Budget Referendum may now be called by the Town Council upon receipt of a petition signed by not less than fifteen (15) percent of qualified electors within fifteen days of the final approval of the Town budget by the Town Council. If the majority of the votes at the referendum are in the affirmative and the total number of votes cast is equal to at least twenty (20) percent of qualified electors, the Town Council shall adopt a new budget in accordance with the results of the referendum. No further referendum shall be permitted after adoption of the new budget by the Council. If the referendum fails, the adopted budget becomes the budget for the next fiscal year.

Independent Audit

State Statute and the Town Charter require an annual audit by an independent certified public accountant. The Statute further prescribes that each municipality's annual report shall be prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). This report has been prepared in accordance with these standards. The auditors' opinion has been included in this report.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of East Hartford for its comprehensive annual financial report for the last thirty-eight (38) fiscal years ended June 30, 1980-2017.

In order to receive the Certificate of Achievement, the Town published an easily readable and efficiently organized comprehensive annual financial report. This report satisfies both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

The presentation of this report could not have been accomplished without the efficient and dedicated services of the Department of Finance staff. I would like to express my appreciation to all those who may have assisted and contributed to this report. Special appreciation is conveyed to the Finance Department staff, especially Assistant Finance Director Linda Trzetziak, as well as Joanne Zatarain, CPA for Business Services at the Board of Education, who were instrumental in completing the report. I also appreciate the continuing support of the Mayor and the Town Council, and the people of East Hartford who are committed to fiscal integrity and financial leadership.

Respectfully submitted,

wholsh

Independent Auditors' Report

To the Honorable Mayor and Members of the Town Council Town of East Hartford, Connecticut

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of East Hartford, Connecticut, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Town of East Hartford, Connecticut's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Town of East Hartford, Connecticut, as of June 30, 2018 and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Changes in Accounting Principle

As discussed in Note 14 to the financial statements, during the fiscal year ended June 30, 2018, the Town of East Hartford, Connecticut adopted new accounting guidance, GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions. The net position of the Town of East Hartford, Connecticut, has been restated to recognize the net other postemployment benefit liability in accordance with GASB No. 75. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information and the pension and OPEB schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of East Hartford, Connecticut's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on them.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the Town of East Hartford, Connecticut, as of and for the year ended June 30, 2017 (not presented herein), and have issued our report thereon December 7, 2017, which contained unmodified opinions on the respective financial statements of the governmental activities, each major fund and the aggregate remaining fund information. accompanying General Fund balance sheet as of June 30, 2017 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the 2017 financial statements. The accompanying General Fund balance sheet has been subjected to the auditing procedures applied in the audit of the 2017 basic financial statements and certain additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the General Fund balance sheet is fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2017.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2018 on our consideration of the Town of East Hartford, Connecticut's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of East Hartford, Connecticut's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of East Hartford, Connecticut's internal control over financial reporting and compliance.

West Hartford, Connecticut

December 19, 2018

TOWN OF EAST HARTFORD, CONNECTICUT MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2018

This discussion and analysis of the Town of East Hartford, Connecticut's (the Town) financial performance is provided by management to provide an overview of the Town's financial activities for the fiscal year ended June 30, 2018. Please read this MD&A in conjunction with the transmittal letter and the Town's financial statements, Exhibits I to IX.

Financial Highlights

- Net position of our governmental activities decreased by \$1.4 million, or 0.7%.
- During the year, the Town had expenses of \$260.4 million, which were \$1.4 million more than the \$259.0 million generated in taxes, grants and other revenues for governmental programs.
- The total cost of all of the Town's programs was \$260.4 million.
- The General Fund reported a total fund balance as of June 30, 2018 of \$24.6 million. The General Fund unassigned component of fund balance was \$20.1 million.
- Actual revenues were \$188.0 million compared to the final budget of \$185.2 million, resulting in higher revenues of \$2.8 million.
- Actual expenditures were \$184.7 million compared to the final budget of \$185.2 million, resulting in lower expenditures of \$506 thousand.

Overview of the Financial Statements

This annual report consists of a series of financial statements. The statement of net position and the statement of activities (Exhibits I and II, respectively) provide information about the activities of the Town as a whole and present a longer-term view of the Town's finances. Fund financial statements are presented in Exhibits III to IX. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Town's operations in more detail than the government-wide statements by providing information about the Town's most significant funds. The remaining statements provide financial information about activities for which the Town acts solely as a trustee or agent for the benefit of those outside of the government.

Government-Wide Financial Statements

The analysis of the Town as a whole begins on Exhibits I and II. The statement of net position and the statement of activities report information about the Town as a whole and about its activities for the current period. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Town's net position and changes in them. The Town's net position, the difference between assets and liabilities, is one way to measure the Town's financial health, or financial position. Over time, increases or decreases in the Town's net position are one indicator of whether its financial health is improving or deteriorating. The reader needs to consider other nonfinancial factors, however, such as changes in the Town's property tax base and the condition of the Town's capital assets, to assess the overall health of the Town.

In the statement of net position and the statement of activities, the Town reports the following activities:

 Governmental Activities - The Town's basic services are reported here, including education, public safety, public works, inspection and permits, parks and recreation, health and social services, and general administration. Property taxes, charges for services, and state and federal grants finance most of these activities.

Fund Financial Statements

The fund financial statements begin with Exhibit III and provide detailed information about the most significant funds - not the Town as a whole. Some funds are required to be established by Charter. However, the Town Council establishes many other funds to help control and manage financial activities for particular purposes (like the Police Private Duty Fund and the Landfill Closure Fund) or to show that it is meeting legal responsibilities for using grants and other money (like grants received from the Community Development Fund and the State and Federal Educational Grants Fund). The Town's funds are divided into three categories: governmental, proprietary and fiduciary.

- Governmental Funds (Exhibits III and IV) Most of the Town's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Town's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is described in a reconciliation included with the fund financial statements.
- Proprietary Funds (Exhibits V, VI and VII) When the Town charges customers for the services it provides, whether to outside customers or to other units of the Town, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the statement of net position and the statement of activities. Internal service funds (the component of proprietary funds) are used to report activities that provide supplies and services for the Town's other programs and activities such as the Town's Risk Management Internal Service Fund.
- Fiduciary Funds (Exhibits VIII and IX) The Town is the trustee, or fiduciary, for its employees' pension plans. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. All of the Town's fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position. These activities are excluded from the Town's other financial statements because the Town cannot use these assets to finance its operations. The Town is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

Government-Wide Financial Analysis

The Town's combined net position decreased from \$(197.2) million to \$(198.6) million. The analysis below focuses on the net position (Table 1) and changes in net position (Table 2) of the Town's governmental activities.

Table 1 NET POSITION (In Thousands)

	Governmental					
	Activities					
		2017				
	 2018		(as Restated)			
Current and other assets	\$ 55,727	\$	64,338

Total Net Position	\$ (198,589)	\$	(197,192)			

Net position of the Town's governmental activities decreased by \$1.4 million or 0.7%. Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements - totaled \$(294.9) million at June 30, 2018 compared to \$(291.0) million at June 30, 2017. Various contributing factors resulting in the decrease in net position are discussed following Table 2.

Restatement			_	(74,922)		
Net Position at End of Year	\$	(198,589)	\$_	(197,192)		

The Town's total revenues were \$259.0 million. The total cost of all programs and services was \$260.4 million. The Town's overall decrease of \$1.4 million in net position compared with a decrease in net position of \$24.0 million last year is attributable to many factors both in relation to full accrual activities on a government-wide basis as well as significant changes in results in operations, year over year, in the Town's General Fund and Internal Service Funds.

The Town's program revenues decreased \$3.6 million to \$259.0 million compared to \$262.6 million in the prior year. Decreases in Operational Grants of \$9.3 million predominately related to State BOE construction grants for athletic field upgrades at the High School and window replacement at the Middle School received in the prior year, increases in property taxes of \$4.3 million due to a higher mill rate and the issuance of a supplemental motor vehicle tax bill, and increases in Other general revenues of \$1.5 million due to the close-out of the East Hartford/Glastonbury Magnet School construction project.

The total program expenses decreased \$26.2 million to \$260.4 million compared with \$286.6 million in the prior year. Public Works reductions of \$10.8 million predominately from Fire and Public Works capital equipment purchases and BOE capital projects completed in FY 17 coupled with Education and General government reductions of \$10.4 million and \$6.9 million respectively which were a result of OPEB reclassifications related to the prior year.

Table 3 presents the cost of each of the Town's five largest programs - general government, public safety, public works, parks and recreation, and education - as well as each program's net cost (total cost less revenues generated by the activities). The net cost shows the financial burden that was placed on the Town's taxpayers by each of these functions.

Town Funds Financial Analysis

Governmental Funds

As the Town completed the year, its governmental funds (as presented in the balance sheet - Exhibit III) reported a combined fund balance of \$23.5 million, which is a \$4.2 million decrease from last year's total of \$27.7 million.

Increases of \$3.8 million in the General Fund, a decrease of \$8.5 million in the Capital Improvement Fund, and an increase in Nonmajor Governmental Funds of \$460 thousand accounted for the changes to fund balance.

The town's General Fund balance of \$24.6 million reported on Exhibit III differs from the General Fund's Budgetary Fund Balance of \$20.1 million. This is principally because budgetary fund balance does not include \$3.4 million of prepaid debt service items and \$1.0 million of outstanding encumbrances at year end.

The General Fund's budgetary revenue estimates generated a \$2.8 million favorable variance as reported in RSI-1 while the General Fund's budgetary expenses generated a \$506 thousand favorable variance as reported in RSI-2.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2018, the Town had \$154.3 million, net of depreciation, invested in a broad range of capital assets, including land, buildings, park facilities, vehicles and equipment roads and bridges - Table 4. This amount represents a net decrease of \$4.3 million, or 2.7%, over last year.

Table 4 CAPITAL ASSETS (Net of Depreciation) (In Thousands)

		Governmental Activities				
	_	2018	2017			
Land Buildings and improvements Furniture, vehicles and equipment	\$	12,527 \$ 72,287 10,597	12,239 74,891 11,456			
Infrastructure Construction in progress	_	41,812 17,121	43,597 16,502			
Totals	\$	154,344 \$	158,685			

The Town's FY 2018-19 Adopted Capital Budget calls for it to spend up to \$2.1 million, excluding referendum items, for various capital equipment including a replacement town-wide phone system, HVAC work at the Community Cultural Center, various replacement Public Works vehicles and small capital equipment like mowers, replacement defibrillators, up to ten police cars, a variety of furniture and carpeting replacements, and funding for a renovation of the Wickham Library including handicap accessibility.

Additional information of the Town's capital assets can be found in Note 5, Capital Assets of this report.

Long-Term Debt

At June 30, 2018, the Town had \$41.1 million in bonds outstanding versus \$47.4 million last year - a decrease of \$6.3 million or 13.2% - as shown in Table 5. The decrease is a result of the Town paying down existing debt without issuing new debt during the reporting period.

Table 5 OUTSTANDING DEBT (In Millions)

	Act		ental ies	
	2018	_	2017	
\$	41.1	\$_	47.4	
•	 \$	2018		

The Town's general obligation bond rating is AA/Stable as issued by S&P Global Ratings. The State limits the amount of general obligation debt that towns can issue based on a formula determined under State Statutes based on type of debt and tax base. The Town's outstanding general obligation debt is significantly below the state-imposed limit.

Other obligations include accrued vacation pay and sick leave. More detailed information about the Town's long-term liabilities is presented in Note 7 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The unemployment rate for the Town of East Hartford is currently 5.9% compared with the prior year of 4.9%.

The appropriation for expenditures totals \$188.4 million in the Adopted Budget for the 2018-19 fiscal year, representing an increase of \$3.2 million or 1.7% compared to the final amended budget for the fiscal year ended June 30, 2018.

The increase in the budget was a result of \$1.8 million of additional pension plan contributions as the town lowers its discount rate to 7.65%, \$800 thousand due to rising labor costs, higher Debt and Capital borrowing costs of \$375 thousand combined, and \$255 thousand to the Board of Education.

If the appropriation estimates and estimated revenues primarily funded from property taxes are realized, the Town does not anticipate using any portion of the undesignated General Fund Balance to balance budgeted operations for the 2018-19 fiscal year.

The Town's elected and appointed officials considered many factors when establishing the tax mill rate of 47.66 for real estate and personal property and 45.00 for motor vehicles for the Adopted Budget for the 2018-19 fiscal year. Overall, when factoring in the increasing mill rate on real estate and motor vehicles, the tax burden increased 2.9% when compared year over year.

CONTACTING THE TOWN'S FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, taxpayers, customers, investors and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Department, Town of East Hartford, 740 Main Street, East Hartford, Connecticut 06108.

TOWN OF EAST HARTFORD, CONNECTICUT STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS (CONTINUED) FOR THE YEAR ENDED JUNE 30, 2018

In Thousands

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Sta

Statement of Activities:	,	
Amounts reported for governmental activities in the statement of activities (Exhibit II) are different because:		
Net change in fund balances - total governmental funds (Exhibit IV)	\$	(4,237)
Governmental funds report capital outlays as expenditures. In the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:		
Capital outlay		2,596
Depreciation expense Loss on disposal of capital assets		(6,904) (33)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, and revenues recognized in the funds are not reported in the statement of activities:		
Property tax receivable - accrual basis change		(294)
Property tax interest and lien revenue - accrual basis change		(135)
Housing rehabilitation loans - accrual basis change		113
Other accounts receivable - accrual basis change Change in deferred outflows amounts related to pension economic/demographic gains or losses		99 (1,464)
Change in deferred outflows amounts related to pension economic/demographic gains or losses Change in deferred outflows amounts related to pension changes in assumptions		11,214
Change in deferred outflows amounts related to pension investment gains or losses		(5,683)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are amortized and deferred in the statement of activities. The details of these differences in the treatment of long-term debt and related items are as follows:		
Bond principal payments		6,270
Capital lease payments		2,763
Amortization of deferred charge on refunding		(83)
Amortization of bond premiums		341
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:		
Compensated absences		(29)
Accrued interest		19
Retirement obligations		16
Change in net pension liability		(24,119)
Change in net OPEB liability		37,395
Landfill post closure expense		28
Change in deferred inflows amounts related to pension		2,783
Change in deferred inflows amounts related to OPEB		(21,443)
Internal service funds are used by management to charge costs to individual funds. The net		
revenue of certain activities of internal services funds is reported with governmental activities.		(610)
Change in Net Position of Governmental Activities (Exhibit II)	\$	(1,397)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Town of East Hartford, Connecticut (the Town) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant policies of the Town are described below.

A. Reporting Entity

The Town was incorporated in October 1783 under the provisions of the State of Connecticut General Assembly.

In June 1929, the form of government was changed to Town Council/Council President. Under home rule, the form of government was again changed to Strong Mayor/Council in April 1968 and exists as such today. The Town provides the full range of municipal services including public safety (police, fire, emergency medical service), streets, sanitation (collection and waste disposal), health and social, recreation (parks and golf course), libraries, education, planning and zoning and general administrative services.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Town. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, charges for services and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received.

The Town reports the following major governmental funds:

The General Fund is the Town's primary operating fund. It accounts for all financial resources of the Town, except those required to be accounted for in another fund.

The Capital Improvement Fund accounts for all the financial resources including school construction grants, bonds and capital lease proceeds used to finance expenditures for capital improvement projects.

Additionally, the Town reports the following fund types:

The Internal Service Funds account for the Town's risk management program.

The Pension and Other Employee Benefit Trust Funds account for the activities of the Town's retirement system, and the Town's retiree healthcare system which accumulates resources for pension benefit payments and healthcare benefit payments, respectively, to qualified Town employees.

The Agency Funds account for assets held in a custodial nature including student activity and developer escrow accounts.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes and other charges between certain Town functions because the elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include property taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's internal service funds are charges to customers for services. Operating expenses for internal service funds include the cost of services and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed. Unrestricted resources are used in the following order: committed, assigned then unassigned.

D. Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the Town to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements and certain other investments as described in Note 3.

Investments for the Town are reported at fair value.

E. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." All trade and property tax receivables are shown net of an allowance for uncollectibles. The allowances are computed based on historical data.

Property taxes on all property are assessed as of October 1 prior to the beginning of the fiscal year and become legally due and payable on the following July 1 and January 1. If taxes are unpaid as of June 30 following the payable date, a lien is placed on the real property. Property assessments are made at 70% of the market value. Property taxes receivable are recorded on the due date. Taxes not paid within 30 days of the due date are subject to an interest charge of 1-1/2% per month. The Town is not a part of any overlapping government that assesses separate property taxes.

Property tax revenue is recorded when it becomes available. Available means due or past due and receivable within the current period and collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period; such time thereafter shall not exceed sixty (60) days.

F. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

G. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded). Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the primary government is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	50
Other improvements	20
Infrastructure	50
Vehicles	10-15
Equipment	10
Furniture and fixtures	20

H. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period or periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town reports a deferred charge on refunding and deferred outflows related to pension in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. A deferred outflow of resources related to pension results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees).

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period or periods and so will not be recognized as an inflow of resources (revenue) until that time. The Town reports deferred inflows of resources related to pension and OPEB in the government-wide statement of net position. The Town also reports a deferred inflow of resources for advance property tax collections in the government-wide statement of net position and in the governmental funds balance sheet. A deferred inflow of resources related to pension and OPEB results from differences between expected and actual experience. These amounts are deferred and included in pension and OPEB

expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension and OPEB plan (active employees and inactive employees). Advance property tax collections represent taxes inherently associated with a future period. This amount is recognized during the period in which the revenue is associated. Also, for governmental funds, the Town reports unavailable revenue, which arises only under the modified accrual basis of accounting. The governmental funds report unavailable revenues from several sources: property taxes, long-term loans and other receivables. These amounts are deferred and recognized as an inflow of resources (revenue) in the period in which the amounts become available.

I. Compensated Absences

Vacation earned can be accumulated by individual employees. In addition, employees may accumulate an additional amount of unused sick leave (as determined by individual union contracts) until termination of their employment.

Holiday pay earned by fire department personnel in the current year is not paid until the following year. Certain employees having at least two years of service with the Town are eligible for longevity benefits. These benefits are earned in the current year and paid in the following year.

J. Net Pension Liability

The net pension liability is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service (total pension liability), net of the pension plan's fiduciary net position. The pension plan's fiduciary net position is determined using the same valuation methods that are used by the pension plan for purposes of preparing its statement of fiduciary net position. The net pension liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period.

K. Other Post Employment (OPEB) Liability

The net OPEB liability is measured as the portion of the present value of projected benefit payments to be provided to current active and inactive employees that is attributed to those employees' past periods of service (total OPEB asset), less the amount of the OPEB plan's fiduciary net position. The OPEB plan's fiduciary net position is determined using the same valuation methods that are used by the OPEB plan for purposes of preparing its statement of fiduciary net position. The net OPEB liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period.

L. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of any significant applicable bond premium or discount. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

M. Fund Equity

Equity in the government-wide financial statements is defined as "net position" and is classified in the following categories:

Net Investment in Capital Assets

This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

Restricted Net Position

Restrictions are externally imposed by creditors (such as through debt covenants), grantors, contributors or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

This component consists of net position that does not meet the definition of "restricted" or "net investment in capital assets."

The equity of the fund financial statements is defined as "fund balance" and is classified in the following categories:

Nonspendable Fund Balance

This represents amounts that cannot be spent due to form (e.g., inventories and prepaid amounts).

Restricted Fund Balance

This represents amounts constrained for a specific purpose by external parties, such as grantors, creditors, contributors or laws and regulations of other governments.

Committed Fund Balance

This represents amounts constrained for a specific purpose by a government using its highest level of decision-making authority, East Hartford Town Council, by adopting a resolution.

Assigned Fund Balance

This balance represents amounts constrained for the intent to be used for a specific purpose by the Town Council or department head as specified in the Town Charter.

Unassigned Fund Balance

This represents fund balance in the General Fund in excess of nonspendable, restricted, committed and assigned fund balance. If another governmental fund has a fund balance deficit, it is reported as a negative amount in unassigned fund balance.

N. Accounting Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, including disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

The Town established its General Fund budget in accordance with provisions of its Charter and the Connecticut General Statutes.

A budget for the General Fund is authorized annually by the Town Council. The Council follows these procedures in establishing the budgetary data reflected in the financial statements:

- Prior to February 23, the Mayor submits to the Town Council a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- Not later than March 11, a public hearing is conducted to obtain taxpayers' comments.
- Prior to March 31, the budget is legally enacted through passage of an ordinance.
- Prior to April 15, referendum petitions on the budget can be filed with the Town Clerk. Once these petitions are certified by the Town Clerk, the Town Council sets a referendum date.
- During the middle of April, a referendum on the budget is held and within five days the Town Council adopts the final budget.
- Under the Town Charter, no department or board may involve the Town in any obligation to spend money for any purpose in excess of the amount appropriated. However, upon approval of the Director of Finance and the Mayor, transfers from one budgetary line item to another may be made within a department, and notification is subsequently given to the legislative body. In addition, the Council may, by resolution, transfer monies from the contingency account to other line items during the first nine months of the fiscal year and may transfer from any account except the debt service line item within the General Fund during the last three months of the fiscal year. There were no additional appropriations made during the year. Appropriations lapse at year end, except appropriations for capital projects that continue until completion of the applicable project.

The budget is administered on a modified accrual basis of accounting except for encumbrances. Encumbrances are recognized as a valid and proper charge against a budget appropriation in the year in which the purchase order is issued, and, accordingly, encumbrances outstanding at year end are reflected in budgetary reports as expenditures in the current year.

Encumbrances are reported in the governmental funds in accordance with accounting principles generally accepted in the United States of America. Open encumbrances are reported as either restricted, committed or assigned fund balance depending on the level of restriction. The commitments will be honored in subsequent years. Encumbrances do not constitute expenditures or liabilities. At year end, the amount of encumbrances expected to be honored upon performance by the vendor were as follows:

	General Fund Capital Improvement Fund Nonmajor Governmental Funds	\$ 1,051 2,547 1,027
	Total	\$ 4,625
B. Deficit Fund Equ		
	Capital Improvement Fund Internal Service Funds:	\$ 4,760
	Workers' Compensation	1,161

Deficit within the internal service fund - workers compensation will be reduced in future years when additional revenues are realized or the General Fund appropriates and transfers funds. Deficit within the capital improvement funds will be reduced by a bond sale which occurred subsequent to June 30, 2018.

3. CASH, CASH EQUIVALENTS AND INVESTMENTS

The deposit of public funds is controlled by the Connecticut General Statutes (Section 7-402). Deposits may be made in a "qualified public depository" as defined by Statute, or, in amounts not exceeding the Federal Deposit Insurance Corporation insurance limit, in an "out of state bank" as defined by the Statutes, which is not a "qualified public depository."

The Connecticut General Statutes (Section 7-400) permit municipalities to invest in: 1) obligations of the United States and its agencies, 2) highly rated obligations of any state of the United States or of any political subdivision, authority or agency thereof, and 3) shares or other interests in custodial arrangements or pools maintaining constant net asset values and in highly rated no-load open end money market and mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations. Other provisions of the Statutes cover specific municipal funds with particular investment authority. The provisions of the Statutes regarding the investment of municipal pension funds does not specify permitted investments. Therefore, investment of such funds is generally controlled by the laws applicable to fiduciaries and the provisions of the applicable plan.

The Statutes (Sections 3-24f and 3-27f) also provide for investment in shares of the State Short-Term Investment Fund (STIF) and the State Tax Exempt Proceeds Fund (TEPF). These investment pools are under the control of the State Treasurer, with oversight provided by the Treasurer's Cash Management Advisory Board, and are regulated under the State Statutes and subject to annual audit by the Auditors of Public Accounts. Investment yields are accounted for on an amortized-cost basis with an investment portfolio that is designed to attain a market-average rate of return throughout budgetary and economic cycles. Investors accrue interest daily based on actual earnings, less expenses and transfers to the designated surplus reserve, and the fair value of the position in the pool is the same as the value of the pool shares.

Deposits

Deposit Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the Town's deposit will not be returned. The Town's credit risk is mitigated by requiring pre-qualification of financial institutions and by monitoring the credit worthiness of any depository used by the Town. The deposit of public funds is controlled by the Connecticut General Statutes. Deposits may be placed with any qualified public depository that has its main place of business in the State of Connecticut. Connecticut General Statutes require that each depository maintain segregated collateral (not required to be based on a security agreement between the depository and the municipality and, therefore, not perfected in accordance with federal law) in an amount equal to a defined percentage of its public deposits based upon the depository's risk based capital ratio.

Based on the criteria described in GASB Statement No. 40, *Deposits and Investment Risk Disclosures*, \$21,132 of the Town's bank balance of \$22,420 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$ 18,967
Uninsured and collateral held by the pledging bank's	
trust department, not in the Town's name	2,165
·	
Total Amount Subject to Custodial Credit Risk	\$ 21,132

Cash Equivalents

At June 30, 2018, the Town's cash equivalents amounted to \$22,830. The following table provides a summary of the Town's cash equivalents (excluding U.S. government guaranteed obligations) as rated by nationally recognized statistical rating organizations. The pools all have maturities of less than 90 days.

	Standard & Poor's
State Short-Term Investment Fund (STIF)	AAAm

Investments

As of June 30, 2018, the Town had the following investments:

						Investment Maturities (Years)							
	Credit	F	air		Less				More				
Investment Type	Rating	V	alue		Than 1		1 - 10		Than 10				
Interest-bearing investments:													
Certificate of deposit	\$	\$	248	\$	248	\$		\$					
U.S. Government securities	AAA		67				67						
Total			315	\$_	248	\$_	67	\$					
				_				_					
Other investments:													
Mutual funds	N/A	2	243,605										
Total Investments	\$	\$2	243,920										

N/A Not applicable

Interest Rate Risk

The Town's general investment policy limits investment maturities as a means of managing its exposure to fair value losses arising from increased interest rates. The Town primarily invests general funds in short-term securities unless it is anticipated that long-term securities can be held to maturity without jeopardizing liquidity requirements. The Town's Retirement Board investment policy for the Town's Pension Trust investments assumes a three- to five-year holding period based on a required minimum annual rate of return of 8.5%.

Credit Risk - Investments

As indicated above, State Statutes limit the investment options of cities and towns. The Town's Retirement Board investment policy limits the Town's Pension Trust investment choices. The investment policy for Pension Trust investments specifically permits investments in individual marketable securities or packages products in the following categories: cash and cash equivalents, fixed income - domestic bonds (investment grade), fixed income - non-U.S. bonds (investment grade), equities - U.S., equities - non-U.S., equities - emerging markets, and equities - REITS. Prohibited asset classes and/or security types are listed in the policy. All of the Town's investments are invested in various pooled accounts and mutual funds that have not been rated by nationally recognized statistical rating organizations.

Concentration of Credit Risk

The Town's general investment policy requires the diversification of investment instruments to avoid incurring unreasonable risks. Percentages of portfolio limitations are included in the policy. The Town's Retirement Board investment policy provides targeted general asset allocation guidelines. Should the general asset allocation exceed a variance of 10% from the target allocation, rebalancing of the portfolio is required. The Town's Retirement Board investment policy does specifically restrict investments in any one issuer.

Custodial Credit Risk

Custodial credit risk for an investment is the risk that, in the event of the failure of the counterparty (the institution that pledges collateral or repurchase agreement securities to the Town or that sells investments to or buys them for the Town), the Town will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The Town's Retirement Board investment policy requires its investment manager to be registered with the Securities and Exchange Commission and to manage the investments in accordance with State and Federal law and the Uniform Prudent Investor Act. The Town's investments, excluding U.S. government obligations, are held in open-end mutual funds which, because they are pooled investments rather than separate identifiable securities, are not subject to custodial risk determination.

Fair Value

The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements); followed by quoted prices in inactive markets or for similar assets or with observable inputs (Level 2 measurements); and the lowest priority to unobservable inputs (Level 3 measurements). The Town has the following recurring fair value measurements as of June 30, 2018:

	June 30,			Fair Valu	ents Using		
	_	2018	_	Level 1		Level 2	Level 3
Investments by fair value level: U.S. Government securities	\$	67	\$	67	Φ.	,	\$
Mutual funds	Ψ —	243,605	Ψ -	243,605	Ψ -		Ψ
Total Investments by Fair Value Level		243,672	\$_	243,672	\$	<u>-</u> ;	\$
Investments not included above		248					
Total Investments	\$_	243,920					

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

4. RECEIVABLES

Receivables as of June 30, 2018 for the Town's individual major funds and nonmajor, internal service and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	_	General		Nonmajor and Other Funds		Total
Receivables:						
Taxes	\$	3,752	\$		\$	3,752
Accrued interest	•	1,020	*		*	1,020
Intergovernmental		277		2,188		2,465
Accounts		798		194		992
Loans and accrued interest on loans Gross receivables	-	5,847		1,817 4,199	 	1,817 10,046
Less allowance for uncollectibles:						
Taxes		(404)				(404)
Accrued interest on taxes		(206)				(206)
Accounts	_	(116)				(116)
Total allowance	-	(726)		-		(726)
Net Total Receivables	\$_	5,121	\$	4,199	\$	9,320

5. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2018 was as follows:

		Beginning					Ending
		Balance		Increases	Decreases	_	Balance
Governmental activities:							
Capital assets not being depreciated:							
Land	\$	12,239	\$	288	\$	\$	12,527
Construction in progress	_	16,502	_	619		_	17,121
Total capital assets not being depreciated		28,741		907		-	29,648
Capital assets being depreciated:							
Buildings and improvements		140,251		800			141,051
Furniture, fixtures, vehicles and equipment		33,097		889	609		33,377
Infrastructure		118,452					118,452
Total capital assets being depreciated		291,800		1,689	609	_	292,880
Less accumulated depreciation for:							
Buildings and improvements		65,360		3,404			68,764
Furniture, fixtures, vehicles and equipment		21,641		1,715	576		22,780
Infrastructure		74,855		1,785			76,640
Total accumulated depreciation		161,856		6,904	576	_	168,184
Total capital assets being depreciated, net	-	129,944		(5,215)	33	_	124,696
Governmental Activities Capital Assets, Net	\$	158,685	\$	(4,308)	\$ 33	\$_	154,344

Depreciation expense was charged to functions/programs of the Town as follows:

Governmental activities:	
General government	\$ 547
Public safety	1,347
Public works	2,677
Parks and recreation	171
Health and social services	12
Education	 2,150
Total Depreciation Expense - Governmental Activities	\$ 6,904

Construction Commitments

The Town has the following active construction projects as of June 30, 2018. At year end, the Town's projects and commitments with contractors are as follows:

Project Series	 Project Authorization		Cumulative Expenditures	Encumbered		Balance June 30, 2018
2016 Authorization	\$ 23,000	\$	2,568	\$ 1,011	\$	19,421
2014 Authorization	15,000		14,404	596		-
2012 Authorization	18,256		18,535			(279)
2008 Authorization	14,835		15,029			(194)
2007 Authorization	21,000		17,780	652		2,568
Town - Capital and Nonrecurring	1,205		261	24		920
BOE - Capital and Nonrecurring	2,326		1,675	259		392
Capital leases	5,390	ı	5,049	5	i	336
Total	\$ 101,012	\$	75,301	\$ 2,547	\$	23,164

6. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

During the course of operations, transactions are processed through one fund on behalf of another fund. Additionally, revenues received in one fund are transferred to another fund. The General Fund provides for working capital advances to/from other funds. A summary of interfund balances as of June 30, 2018 is presented below:

Receivable Fund	Receivable Fund Payable Fund		
General Fund	Capital Improvement Fund Nonmajor Governmental Funds Internal Service Fund Fiduciary Funds	\$	8,111 266 77 166 8,620
Capital Improvement Fund	General Fund		2,585
Nonmajor Governmental Funds	General Fund		2,316
Internal Service Fund	General Fund	-	137
Total		\$_	13,658

A summary of interfund transfers is presented below:

		Transfers In

7. LONG-TERM DEBT

Changes in Long-Term Liabilities

Long-term liability activity for the year ended June 30, 2018 was as follows:

	Beginning				Ending		Due Within
_	Balance	Additions	Additions Reductions		Balance		One Year
Governmental Activities: General obligation bonds \$	47,395	¢	\$ 6,270	¢	41,125	\$	6,985
Premium on refunding bonds	3,121	Ψ	341	Ψ	2,780	Ψ	0,903
Total bonds payable	50,516		6,611		43,905	-	6,985
Capital leases Landfill postclosure monitoring	17,679 420		2,763 28		14,916 392		2,758 28
Compensated absences	16,081	5,463	5,434		16,110		5,335
Retirement obligations	74		16		58		
Net OPEB obligation*	145,604		37,395		108,209		
Net pension liability	179,770	24,119			203,889		
Risk management claims	4,781	406			5,187		2,987
Governmental Activities	444.005				000.000	•	40.000
Long-Term Liabilities \$	414,925	\$ 29,988	\$ 52,247	= \$=	392,666	\$	18,093

^{*}Note: Beginning balance has been restated for GASB 75, see Footnote 20.

The risk management claims accounted for in the Internal Service Funds are reported in the long-term liabilities as part of the above totals for governmental activities. All long-term liabilities are generally liquidated by the General Fund.

Bonds payable at June 30, 2018 are comprised of the following individual issues:

Description	Interest Rate %	Issue Date	Maturity Date	Original Amount	Balance Outstanding June 30, 2018
Refunding - issues dated 5/1/03	3.000 - 5.000	9/15/2009	5/1/2023	\$ 8,370	\$ 485
General purpose	2.000 - 5.000	7/1/2011	7/1/2021	11,000	1,375
General purpose and school					
improvements	2.000 - 3.000	2/26/2013	2/26/2028	12,230	5,480
General purpose	2.12	6/17/2014	1/15/2024	19,100	12,725
General purpose	2.125 - 4.000	9/28/2016	10/15/2026	14,835	14,835
Refunding - issues dated 9/15/09 and 7/1/11	2.125 - 4.000	9/28/2016	10/15/2026	6,225	6,225
Total					\$ 41,125

The annual requirements to amortize bonds payable as of June 30, 2018 are as follows:

Year Ending June 30	_	Principal	_	Interest		Total
2019	\$	6,985	\$	1,229	\$	8,214
2020		7,045		989		8,034

2023		4,660		379		5,039
2024-2028		10,375		577	_	10,952
	_	_	_		_	_
Total	\$_	41,125	\$_	4,467	\$_	45,592

Prior Year Defeasance of Debt

In prior years, the government defeased general obligation bonds by placing the proceeds of the new bonds in an irrevocable trust account to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the government's financial statements. At June 30, 2018, \$6,225 of defeased bonds remain outstanding. The balance in escrow was \$6,380 at June 30, 2018.

Bonds authorized/unissued for which bonds or notes are outstanding are as follows:

Description	 Authorized		Grants Received	-	Bonds Issued/ Paydowns	' -	Authorized Unissued
East Hartford Middle School							
Improvements	\$ 5,731	\$	2,445	\$	3,226	\$	60
East Hartford High School							
Renovations and Improvements	11,640		7,184		4,100		356
Flood Control System Improve 2010	7,000				4,000		3,000
East Hartford Middle School Window Wall	1,600						1,600
Road Improvements 2014/2012	25,000				19,996		5,004
Road Improvements/Flood Control 2016	15,000						15,000
Senior Center/Multi-purpose Facility 2016	5,000						5,000
Silver Lane Corridor Improvements 2016	3,000			-		_	3,000
Total	\$ 73,971	\$_	9,629	\$	31,322	\$_	33,020

The Town's indebtedness (\$192,750) does not exceed the legal debt limitation as required by the Connecticut General Statutes as reflected in the following schedule:

Category	Debt Limit	Net Indebtedness	Balance
_			
General purpose \$	279,691	\$ 71,827	\$ 207,864
Schools	559,382	2,318	557,064
Sewers	466,151	118,605	347,546
Urban renewal	403,998		403,998
Pension deficit	372,921		372,921

The total overall statutory debt limitation for the Town is equal to seven times annual receipts from taxation \$870,149.

The indebtedness reflected above includes bonds outstanding in addition to the amount of bonds authorized and unissued against which debt is issued and outstanding.

Capital Leases

The Town has entered into multi-year capital leases for the purchase of various capital items including public works equipment, vehicles and computer hardware and software.

The assets acquired through capital leases are as follows:

Asset class:	
Building improvements	\$ 14,417
Vehicles	10,222
Equipment	5,584
Furniture	 556
Total gross value	30,779
Less accumulated depreciation	 (15,863)
Net Book Value	\$ 14,916

The net book value approximates the capital lease principal balance payable at June 30, 2018.

Principal payments for 2017-2018 were \$2,595. The following is a summary of capital lease commitments as of June 30, 2018:

Year Ending June 30	_	Amount
2019 2020 2021 2022 2023 Thereafter	\$	3,231 2,889 2,692 1,989 1,544 4,612
Total minimum lease payments Less amount representing interest	_ _	16,957 (2,041)
Present Value of Minimum Lease Payments	\$_	14,916

Landfill Closure

The Town completed the capping of its landfill under a consent order issued by the State of Connecticut Department of Environmental Protection (now the Department of Energy and Environmental Protection, DEEP) requiring the Town to close and cap the landfill. Solid waste landfill closure and post closure care requirements have been established by DEEP. The Town began its post closure monitoring period during fiscal year 2003. The costs associated with monitoring and maintaining the landfill area during the post closure period is the responsibility of the Town and will be paid by the General Fund. The estimated costs to perform the monitoring requirements during a projected 15-year monitoring period are \$392. These estimates are subject to change due to inflation, changes in regulations or if environmental problems are identified during post closure monitoring period. None of these costs are expected to be paid from current available resources.

Post closure monitoring is approximately \$28 per year.

Compensated Absences

Employees can accumulate additional amounts of unused vacation and sick leave, and earn compensatory time (as determined by individual union contracts) until termination of their employment. At termination, pay-out provisions as determined by individual union contract provides for payments to vested employees.

The following is a summary of management's estimate of the vested and nonvested potential liability for lump-sum payments to employees as of June 30, 2018:

Vested:		
Sick	\$	6,336
Vacation		2,923
Compensatory		816
Nonvested:		
Sick	_	6,035 *
Total	\$_	16,110

^{*} Based on estimated percentage of total nonvested obligation that potentially will vest in future years.

Retirement Obligations

Board of Education retirement obligations in the amount of \$58 consist of amounts due to employees, payable upon retirement, representing deferred commitments awarded to employees in 1992 in lieu of receiving raises for that year.

8. OPERATING LEASE

In November 2013, the Town entered into an operating lease with a company to manage the operations of the Town's golf course. The initial term of the contract was effective on November 8, 2013 for a five-year term with an option to renew for two additional three-year terms if mutually agreed. The agreement calls for an initial funding by the Town of \$50 and includes an annual base management fee of \$81 per year. An additional incentive management fee is also provided for if the company outperforms the annual revenue budget projection at \$5 for each \$50 increase in total revenue over the budgeted projection.

9. FUND BALANCE

The components of fund balance for the governmental funds at June 30, 2018 are as follows:

	_	Major Funds					
	_	General Fund	•	Capital Improvement Fund	•	Nonmajor Governmental Funds	 Total
Fund balances:							
Nonspendable:							
Endowment	\$		\$		\$	144	\$ 144
Prepaid expenditures		3,437		371		25	3,833
Restricted for:							
Grants						482	482
Donations						753	753
Committed to:							
Redevelopment						1	1
School cafeteria						1,530	1,530
Youth services						27	27
Recreation programs						396	396
Education programs						296	296
Assigned to:							
Purchases on order:							
General government		379					379
Public works		487					487
Parks and recreation		11					11
Public safety		174					174
Unassigned	_	20,111		(5,131)	-		 14,980
Total Fund Balances	\$_	24,599	\$	(4,760)	\$	3,654	\$ 23,493

Significant encumbrances at June 30, 2018 are contained in the above table in the assigned category of the General Fund.

10. RISK MANAGEMENT

The Town is exposed to various risks of loss including torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disaster. The Town has chosen to retain the risks for workers' compensation through a Workers' Compensation Fund, employee health and medical claims (Health Benefits Fund) and general and auto liability claims (General Liability Fund). These funds are reported as Internal Service Funds. The Town purchases commercial insurance for all other risks of loss, including blanket and umbrella policies. Settled claims have not exceeded commercial coverage in any of the past three fiscal years. Various Town funds contribute to the self-insurance funds based on estimates made using historical data. The Town contracted with outside organizations to pay claims and provide administrative services. Additionally, stop-loss insurance coverage has been purchased to limit the Town's liability for health and medical claims. A claims liability of \$2,540 for the Workers' Compensation Fund, reported at June 30, 2018, is based on a summary report of outstanding liabilities for workers compensation and heart and hypertension claims. The claims liability of \$1,527 for the Health Benefits Fund, reported at June 30, 2018, is based on estimated claims incurred but not reported.

A claims liability of \$1,120 for the General Liability Fund, reported at June 30, 2018, is based on a summary loss report of outstanding liabilities by coverage. The changes in the claims liability were as follows:

Fiscal Year	_	Accrued Liability Beginning of Fiscal Year	Current Year Claims and Changes in Estimates		Accrued Liability Claim Payments		Accrued Liability End of Fiscal Year
2017-18 2016-17	\$	4,781 5,083	\$ 24,904 22,230	\$	24,498 22,532	\$	5,187 4,781

11. OVERLAPPING DEBT

The Town is a member of the Metropolitan District (a quasi-municipal corporation that provides water supply, sewerage collection and disposal facilities for members). Member towns are assessed a percentage of the Metropolitan District's net outstanding debt. As such, the Town's overlapping share of debt issued by the Metropolitan District is \$118,605 as of June 30, 2018.

12. EMPLOYEE RETIREMENT SYSTEMS AND PENSION PLANS

A. Plan Description and Benefits Provided

The Town is the administrator of a single-employer Public Employee Retirement System (PERS) established by the Town to provide pension benefits for its employees. The Public Employee Retirement System was enacted by Special Act of the Connecticut Legislature. The plan is managed by the Pension and Retiree Benefit board consisting of five members appointed by Town Council including the Town Treasurer, a Town Councilor, and three electors of the Town, one of whom shall be a member of the Town's retirement system. The board serves as trustee of the funds and shall determine contributions payable by the Town in accordance with sound actuarial principles. The Pension and Retiree Benefit Board shall ensure the pension funds are prudently invested for long-term, safe growth of invested funds. There are no stand-alone financial statements issued for the PERS. The PERS is considered to be part of the Town's financial reporting entity and is included in the Town's financial reports as a pension trust fund.

The Town of East Hartford Retirement System covers all full-time police, firefighter, dispatchers and general employees of the Town and full-time paraprofessionals and noncertified employees of the Board of Education hired prior to December 31, 2005 and only police, firefighter, paraprofessionals and dispatchers hired after December 31, 2005. The Town provides all retirement, death and disability benefits through a single-employer, contributory, defined benefit plan. Firefighters and police officers are 100% vested after 15 years of service. Dispatchers are 100% vested after 5 years of service. All other participants in the plan are 100% vested after 10 years of service. Firefighters and police officers who retire at normal retirement (25 years of service regardless of age, or age 65 with the completion of 15 years of service) receive a benefit of 2.5% of final average salary per year of service to a maximum of 75% of final average salary. Paraprofessional employees who retire at normal retirement (attainment of age 65 and completion of 10 years of service; attainment of age 62 and completion of 25 years of

service; the latter of age 65 or 5 years of participation in the plan; or the Rule of 85) receive a benefit of 2.2% of the employee's final average salary multiplied by the number of years and full months of credited service, not to exceed 70% of the employee's final average salary. The paraprofessional employee pension plan closed as of June 30, 2015. Dispatchers who retire at normal retirement (attainment of age 65 and completion of 5 years of credited service; 25 years of credited service regardless of age; or the Rule of 75) receive a benefit of 2.2% of the employee's final average salary multiplied by the number of years and full months of credited service, not to exceed 70% of the employee's final average salary. All other participants of the plan who retire at normal retirement (the latter of age 65 and the completion of ten years of service, or the latter of age 62 and the completion of 25 years of service) receive a benefit of 2.33% of final average salary per year of service to a maximum of 70% of final average salary. Final average salary is defined as the average of salary earned during the highest 36 consecutive months of employment based upon the plan year prior to termination.

Cost of living adjustments are provided to retirees as follows:

- General Town and Board of Education Employees: retirees and beneficiaries who retired prior to January 1, 1991 receive an annual 2% increase. Retirees and beneficiaries who retired on or after January 1, 1991 but prior to January 1, 2002 receive an annual 1% increase. Retirees and beneficiaries who retired on a Disability Pension after December 1, 1996 and prior to December 31, 2005 receive a 1% annual increase. Participants retiring after July 1, 2005 receive a 2% annual increase.
- Police and Fire Employees: Police retirees who retired after January 1, 2000 receive 2% increase per year with the first increase paid in the fifth year of retirement. Fire retirees who retired after July 1, 2005 receive a 1% increase beginning in the fifth year of retirement, increasing to 2% per year starting with the ninth year of retirement. Police and Fire retirees who retired prior to January 1, 1991 receive a 2% annual increase. Retirees and beneficiaries who retired on or after January 1, 1991 but prior to January 1, 2002 receive a 1% annual increase. (The 2% Police COLA supersedes the 1% for retirees and beneficiaries who retired in 2000 or 2001).

Plan benefits may be amended by the Town Council.

The membership of the plan consisted of the following at July 1, 2017, the date of the latest actuarial valuation (not rounded):

Retiree, disabled and beneficiaries currently receiving benefits Terminated employees entitled to benefits but not yet receiving them	689 27
Current employees:	
Vested	27
Nonvested	497
Inactive participants eligible for a refund of contributions	70
Total	1,310

The pension plan was closed to new entrants on July 1, 2006.

B. Summary of Significant Accounting Policies, Plan Asset Matters and Plan Changes

Basis of Accounting

The Town's Pension Trust Funds' financial statements are prepared on the accrual basis of accounting. Employer and employee contributions are recognized when due, pursuant to plan provisions and contractual requirements. Benefit payments and refunds are payable when due and payable in accordance with the terms of the plan.

Method Used to Value Investments

Investments are valued at fair value.

Plan Change

The net investment return assumption was lowered from 7.90% to 7.65% to better reflect future expected experience.

Plan Expenses

Expenses of administering the plan are paid for by the plan.

C. Funding Policy

The contribution requirements of plan members are fixed by contract and may be amended by union negotiations as approved by the Town Council.

Employee contribution requirements as a percentage of their earnings to the PERS are as follows:

General Employees	8.50 %
Firefighters	9.00
Police Officers	8.00
Paraprofessionals	6.00
Dispatchers	8.00

If an employee leaves employment before meeting the vesting requirements, accumulated employee contributions and interest are refunded. Interest on employee contributions is credited at 4% per year. The Town is required to contribute the remaining actuarially determined amount necessary to provide the benefits for its employees. The Town's current contribution percentage is 35.6% of covered payroll. The annual required contribution for the current year was determined as part of the PERS actuarial valuation dated July 1, 2017.

D. Investments

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Retirement Board by a majority vote of its members. It is the policy of the Retirement Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board's adopted asset allocation policy as of June 30, 2018:

Asset Class	Target Allocation
Domestic Equities	35.00%
International Developed Markets Equities	20.00%
Emerging Markets	5.00%
REITs	5.00%
Core Fixed Income	35.00%
Total Portfolio	100.00%

Rate of Return

For the year ended June 30, 2018, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 6.99%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

E. Deferred Retirement Option Plan (DROP)

The Town offers a DROP to bargaining unit members employed on or after July 1, 2001. Any bargaining unit member who is a member of the Retirement Plan for full-time employees of the Police Department of the Town upon completing his/her 25th year of service may elect the DROP at any time up to and through the completion of his/her 29th year of service. No bargaining unit member may elect the DROP after the completion of his/her 29th year of service. Upon the election of the DROP, no further pension benefits will accrue. During the DROP period, the employee's monthly pension benefits will be made to the employee's separately designated DROP account equal to 96% of the pension payment the employee was entitled to receive had that employee not elected the DROP. Upon separation from Town service, the monthly pension benefit shall increase to 100% of the monthly pension payment. During the DROP period, the employee will continue to make employee contributions equivalent to the amounts in effect at the time the DROP was elected and these contributions will be made to the Town's Pension Fund, not the member's separate DROP account. The DROP period has a minimum length of one year and a maximum of five years.

F. Net Pension Liability of the Town

The components of the net pension liability of the Town at June 30, 2018 were as follows:

Total pension liability \$ 437,933

Plan fiduciary net position (234,044)

Net Pension Liability \$______\$

Plan fiduciary net position as a percentage

of the total pension liability 53.44%

The total pension liability was determined by an actuarial valuation as of July 1, 2017, using the following actuarial assumptions applied to all periods included in the measurement:

Inflation 2.0%

Salary increases varies by age and department Investment rate of return 7.65%, including inflation

Mortality rates were based on the RP-2000 Healthy Mortality Table projected 16 years with scale BB.

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2016.

Long-term returns are determined using a building-block method in which the best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target allocation as of June 30, 2017 are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return	Weighting
Domestic Equities	6.40%	2.24%
Domestic Equities	0.4070	2.24 /0
International Developed Markets Equities	7.40%	1.48%
Emerging Markets	9.80%	0.49%
REITs	6.40%	0.32%
Core Fixed Income	1.75%	0.61%
Total Portfolio		5.14%
Long-Term Inflation Expectation		2.00%
Long-Term Expected Nominal Return		7.14%

Discount Rate

The discount rate used to measure the total pension liability was 7.65%, a decrease from 7.90% for the year ended June 30, 2017. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made at the current contribution rate and that the Town contributes at rates equal to the actuarially determined contribution rates. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries, are included. Projected employer contributions that are intended to fund the service costs of future plan members, and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability

	Increase (Decrease)			
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a)-(b)	
Balances as of July 1, 2017	\$ 404,392 \$	224,622 \$	179,770	
Changes for the year:				
Service cost	5,819		5,819	
Interest on total pension liability	31,058		31,058	
Differences between expected and actual experience	2,279		2,279	
Changes of assumptions	17,621		17,621	
Benefit payments	(23,236)	(23,236)	-	
Employer contributions		13,707	(13,707)	
Member contributions		3,288	(3,288)	
Net investment income		15,874	(15,874)	
Administrative expenses		(211)	211	
Net changes	33,541	9,422	24,119	
Balances as of June 30, 2018	\$ 437,933 \$	234,044 \$	203,889	

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Town, calculated using the discount rate as well as what the Town's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	_	1% Decrease in Discount Rate (6.65%)	 Current Discount Rate (7.65%)	 1% Increase in Discount Rate (8.65%)
Net Pension Liability as of June 30, 2018	\$	253,796	\$ 203,889	\$ 162,138

Pension Expense and Deferred Outflows of Resources

For the year ended June 30, 2018, the Town recognized pension expense of \$30,973. At June 30, 2018, the Town reported deferred outflows and inflows of resources related to pension from the following sources:

	Deferred Outflows of Resources	· -	Deferred Inflows of Resources
Changes in pension economic/demographic gains or losses Changes of assumptions Changes in pension investment gains or losses	\$ 2,332 15,552 6,646	\$	2,597
Total	\$ 24,530	\$	2,597

Amounts reported as deferred outflows and inflows of resources related to pension will be recognized in pension expense as follows:

Year Ending Jun	e 30	
2018 2019 2020 2021	\$	11,690 7,896 2,135 212
	\$_	21,933

13. TEACHERS RETIREMENT PENSION

A. Plan Description

Teachers, principals, superintendents or supervisors engaged in service of public schools are provided with pensions through the Connecticut State Teachers' Retirement System, a cost sharing multiple-employer defined benefit pension plan administered by the Teachers Retirement Board. Chapter 167a of the State Statutes grants authority to establish and amend the benefit terms to the Teachers Retirement Board. The Teachers Retirement Board issues a publicly available financial report that can be obtained at www.ct.gov.

B. Benefit Provisions

The plan provides retirement, disability and death benefits. Employees are eligible to retire at age 60 with 20 years of credited service in Connecticut, or 35 years of credited service including at least 25 years of service in Connecticut.

Normal Retirement

Retirement benefits for employees are calculated as 2% of the average annual salary times the years of credited service (maximum benefit is 75% of average annual salary during the 3 years of highest salary).

Early Retirement

Employees are eligible after 25 years of credited service including 20 years of Connecticut service, or age 55 with 20 years of credited service including 15 years of Connecticut service with reduced benefit amounts.

Disability Retirement

Employees are eligible for service-related disability benefits regardless of length of service. Five years of credited service is required for nonservice-related disability eligibility. Disability benefits are calculated as 2% of average annual salary times credited service to date of disability, but not less than 15% of average annual salary, nor more than 50% of average annual salary.

C. Contributions

Per Connecticut General Statutes Section 10-183z (which reflects Public Act 79-436 as amended), contribution requirements of active employees and the State of Connecticut are approved, amended and certified by the State Teachers Retirement Board and appropriated by the General Assembly.

Employer (School Districts)

School District employers are not required to make contributions to the plan.

The statutes require the State of Connecticut to contribute 100% of each school districts' required contributions, which are actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of the benefits earned by employees during the year, with any additional amount to finance any unfunded accrued liability.

Employees

Effective July 1, 1992, each teacher is required to contribute 6% of salary for the pension benefit.

Effective January 1, 2018, the required contribution increased to 7% of pensionable salary.

D. Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the Town reports no amounts for its proportionate share of the net pension liability, and related deferred outflows and inflows, due to the statutory requirement that the State pay 100% of the required contribution. The amount recognized by the Town as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the Town were as follows:

Town's proportionate share of the net pension liability	\$ -
State's proportionate share of the net pension liability associated with the Town	 178,519
Total	\$ 178,519

The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016. At June 30, 2018, the Town has no proportionate share of the net pension liability.

For the year ended June 30, 2018, the Town recognized pension expense and revenue of \$20,650 in Exhibit II for on-behalf amounts for the benefits provided by the State.

E. Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of June 30, 2017, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.75%

Salary increase 3.25-6.50%, including inflation

Investment rate of return 8.00%, net of pension plan investment

expense, including inflation

Mortality rates were based on the RPH-2014 White Collar table with employee and annuitant rates blended from ages 50 to 80, projected to the year 2020 using the BB improvement scale, and further adjusted to grade in increased rates (5% for females and 8% for males) over age 80 for the period after service retirement and for dependent beneficiaries as well as for active members. The RPH-2014 Disabled Mortality Table projected to 2017 with Scale BB is used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2010 - June 30, 2016.

For teachers who retired prior to September 1, 1992, pension benefit adjustments are made in accordance with increases in the Consumer Price Index, with a minimum of 3% and a maximum of 5% per annum.

For teachers who were members of the Teachers' Retirement System before July 1, 2007 and retire on or after September 1, 1992, pension benefit adjustments are made that are consistent with those provided for Social Security benefits on January 1 of the year granted, with a maximum of 6% per annum. If the return on assets in the previous year was less than 8.5%, the maximum increase is 1.5%.

For teachers who were members of the Teachers' Retirement System after July 1, 2007, pension benefit adjustments are made that are consistent with those provided for Social Security benefits on January 1 of the year granted, with a maximum of 5% per annum. If the return on assets in the previous year was less than 11.5%, the maximum increase is 3%, and if the return on the assets in the previous year was less than 8.5%, the maximum increase is 1.0%.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Large Cap U.S. equities Developed non-U.S. equities	21.0% 18.0%	5.8% 6.6%
Emerging markets (non-U.S.)	9.0%	8.3%
Real estate	7.0%	5.1%
Private equity	11.0%	7.6%
Alternative investments	8.0%	4.1%
Fixed income (core)	7.0%	1.3%
High yield bonds	5.0%	3.9%
Emerging market bond	5.0%	3.7%
Inflation linked bonds	3.0%	1.0%
Cash	6.0%	0.4%
Total	100.0%	

F. Discount Rate

The discount rate used to measure the total pension liability was 8.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that State contributions will be made at the actuarially determined contribution rates in the future years. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The Town's proportionate share of the net pension liability is \$-0- and, therefore, the change in the discount rate would only impact the amount recorded by the State of Connecticut.

H. Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued financial statements available at www.ct.gov.

I. Other Information

Additional information is included in the required supplementary information section of the financial statements. A schedule of contributions is not presented as the Town has no obligation to contribute to the plan.

14. POST EMPLOYMENT HEALTHCARE PLAN - RETIREE HEALTH PLAN

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Retiree Health Plan (RHP) are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Administrative costs of the plan are paid by the Town.

Investments are reported at fair value. Investment income is recognized as earned.

Plan Description

The RHP is a single-employer defined benefit healthcare plan administered by the Town. The RHP provides medical, dental and life insurance benefits to eligible retirees and their spouses. All employees of the Town are eligible to participate in the plan. Benefit provisions are established through negotiations between the Town and the various unions representing the employees.

The plan is considered to be part of the Town's financial reporting entity and is included in the Town's financial report as the Retiree Benefit Trust Fund. The plan does not issue a stand-alone financial report.

Management of the post-employment benefits plan is vested with the Director of Finance and the Pension and Retiree Benefits Board. Policy oversight is provided by the Pension and Retiree Benefits Board, which consists of five members, including the Town Treasurer, one member of the Town Council, two electors of the Town and one labor member.

At July 1, 2017, plan membership consisted of the following:

	Retiree Health Plan (not rounded)
Retired members and spouses Active plan members	627 1,185
Total Participants	1,812

Funding Policy

The contribution requirements of plan members and the Town are also negotiated with the various unions representing the employees. Retired plan members and beneficiaries currently receiving benefits are required to contribute specified amounts monthly towards the cost of health insurance premiums as follows:

Town Employees (not rounded)

The cost per month for Town employees receiving medical coverage under Anthem or ConnectiCare is \$787 per month for retiree only coverage and \$1,574 per month for retiree and spouse coverage to age 65, and \$169 and \$338 per month, respectively, thereafter.

Board of Education Employees (not rounded)

The cost per month for Board of Education employees receiving medical coverage under Anthem is \$662 per month for retiree only coverage and \$1,324 per month for retiree and spouse coverage to age 65, and \$169 and \$338 per month, respectively, thereafter. The cost per month for Board of Education employees receiving dental coverage under Anthem is \$50 per month for retiree only coverage and \$100 per month for retiree and spouse coverage.

For the year ended June 30, 2018, plan members contributed \$174 and the TRB subsidy was \$164. The Town is required to contribute the balance of the current premium cost and may contribute an additional amount as determined by the Town in order to prefund benefits.

Employer contributions to the plan of \$3,036 were made in accordance with actuarially determined requirements, which represent premium payments.

Investment Policy

OPEB Benefits Plan's policy in regard to the allocation of invested assets is established and may be amended by the Pension and Retiree Benefits Board by a majority vote of its members. It is the policy of the Pension and Retiree Benefits Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. Pension and Retiree Benefits Board's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans.

The following was the Board's adopted asset allocation policy as of June 30, 2018:

Asset Class	Target Allocation
U.S. Large Cap	18.00 %
U.S Small Cap	6.00
International Large Cap	15.00
International Small Cap	7.50
Emerging Markets	7.50
Alternatives (RE, etc.)	6.00
Fixed Income	40.00
Total	100.00 %

Rate of Return

For the year ended June 30, 2018, the annual money-weighted rate of return on investments, net of investment expense, was 10.96%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net OPEB Liability of the Town

The Town's net OPEB liability was measured as of June 30, 2018. The components of the net OPEB liability of the Town at June 30, 2018 were as follows:

Total OPEB liability	\$	117,888
Plan fiduciary net position		9,679
Net OPEB Liability	\$	108,209
		
Plan fiduciary net position as a		
percentage of the total OPEB liability		8.21%

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of July 1, 2017, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Interest	3.87%
Inflation	2.60%

Healthcare cost trend rates 7.0% decreasing to an ultimate rate of 3.6%

Mortality rates for Teachers, School Administrators, BOE Non-Certified and Town employees were based on the RP-2014 Adjusted to 2006 Total Dataset Mortality Table projected to valuation date with Scale MP-2017.

Mortality rates for Police and Fire employees were based on the RP-2014 Adjusted to 2006 Blue Collar Mortality Table projected to valuation date with Scale MP-2017.

The actuarial assumptions used in the July 1, 2017 valuation were based on standard tables modified for certain plan features such as eligibility for full and early retirement where applicable and input from the plan sponsor. A full actuarial experience study has not been completed.

The long-term expected rate of return on OPEB plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return are developed. Best estimates of the real rates of return for each major asset class are included in the OPEB plan's target asset allocation, as summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return				
U.S. Large Cap	18.00 %	5.60 %				
U.S Small Cap	6.00	5.90				
International Large Cap	15.00	5.80				
International Small Cap	7.50	5.80				
Emerging Markets	7.50	6.85				
Alternatives (RE, etc.)	6.00	4.25				
Fixed Income	40.00	1.75				
Total	100.00 %					

Discount Rate

The discount rate used to measure the total OPEB liability was 3.87% (prior 3.58%). The projection of cash flows used to determine the discount rate assumed that Town contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Changes in the Net OPEB Liability

		Total OPEB Liability (a)		ncrease (Decrease) Plan Fiduciary Net Position (b)	Net OPEB Liability (a) - (b)
Balances as of July 1, 2017	\$	154,033	\$	8,429 \$	145,604
Changes for the year: Service cost		E 202			E 202
Interest on total OPEB liability		5,302 5,655			5,302 5,655
Effect of plan changes		(19,903)			(19,903)
Effect of economic/demographic gains or losses		(20,421)			(20,421)
Effect of assumptions changes or inputs		(4,033)			(4,033)
Benefit payments		(2,745)		(2,745)	-
Employer contributions		,		3,036	(3,036)
Member contributions				174	(174)
TRB subsidy				164	(164)
Net investment income				635	(635)
Administrative expenses	_			(14)	14
Balances as of June 30, 2018	\$	117,888	\$_	9,679 \$	108,209

The discount rate in the current year increased to 3.87% from 3.58%. The rate of compensation (including inflation) decreased to 2.60% from 3.00%. Since the OPEB plan's fiduciary net position as the measurement date is not sufficient to cover the first year expected benefit payments for current plan members, the selection of the discount rate is consistent with the GASB 74 and GASB 75 standards linking the discount rate to the 20 year AA municipal bond index for unfunded OPEB plans. The discount rate used for this disclosure is equal to the published Bond Buyer GO 20-Bond Municipal Index effective as of June 30, 2018.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the Town, as well as what the Town's net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

		1% Decrease (2.87%)		Current Discount Rate (3.87%)		1% Increase (4.87%)	
Net OPEB Liability	 \$	123,143	\$	108,209	* *	95,870	

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the net OPEB liability of the Town, as well as what the Town's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1 percentage point higher than the current healthcare cost trend rates:

	1% Decrease	Trend Rates	1% Increase
	(6.00% decreasing to 3.60%)	(7.00% decreasing to 3.60%)	(8.00% decreasing to 5.60%)
Net OPEB Liability	\$ 94,185 \$	108,209	\$ 125,494

OPEB Expense (Revenue) and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2018, the Town recognized OPEB expense (revenue) of (\$12,916). At June 30, 2018, the Town reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	_	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience Changes of assumptions Net difference between projected and	\$	\$	17,616 3,570
actual earning on pension plan investments	_		257
Total	\$	\$	21,443

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30,

2019	\$ 2,816
2020	2,816
2021	2,816
2022	2,816
2023	2,751
Thereafter	 7,428
	\$ 21,443

15. OTHER POST EMPLOYMENT BENEFIT - TEACHERS RETIREMENT PLAN

A. Plan Description

Teachers, principals, superintendents or supervisors engaged in service of public schools plus professional employees at State Schools of higher education are eligible to participate in the Connecticut State Teachers' Retirement System Retiree Health Insurance Plan (TRS-RHIP), a cost sharing multiple-employer defined benefit other post employment benefit plan administered by the Teachers' Retirement Board (TRB), if they choose to be covered.

Chapter 167a of the State Statutes grants authority to establish and amend the benefit terms to the TRB. TRS-RHIP issues a publicly available financial report that can be obtained at www.ct.gov/trb.

B. Benefit Provisions

There are two types of the health care benefits offered through the system. Subsidized Local School District Coverage provides a subsidy paid to members still receiving coverage through their former employer and the CTRB Sponsored Medicare Supplemental Plans provide coverage for those participating in Medicare but not receiving Subsidized Local School District Coverage.

Any member who is not currently participating in Medicare Parts A & B is eligible to continue health care coverage with their former employer. A subsidy of up to \$110 per month for a retired member plus an additional \$110 per month for a spouse enrolled in a local school district plan is provided to the school district to first offset the retiree's share of the cost of coverage, and any remaining portion is used to offset the district's cost. The subsidy amount is set by statute and has not increased since July 1996. A subsidy amount of \$220 per month may be paid for a retired member, spouse or the surviving spouse of a member who has attained the normal retirement age to participate in Medicare, is not eligible for Part A of Medicare without cost, and contributes at least \$220 per month towards coverage under a local school district plan.

Any member who is currently participating in Medicare Parts A & B is eligible to either continue health care coverage with their former employer, if offered, or enroll in the plan sponsored by the System. If they elect to remain in the plan with their former employer, the same subsidies as above will be paid to offset the cost of coverage.

If a member participating in Medicare Parts A & B so elects, they may enroll in one of the CTRB Sponsored Medicare Supplemental Plans. Active members, retirees and the State pay equally toward the cost of the basic coverage (medical and prescription drug benefits). There are three choices for coverage under the CTRB Sponsored Medicare Supplemental Plans. The choices and 2017 calendar year premiums charged for each choice are shown in the table below:

•	Medicare Supplement with Prescriptions	\$ 92
•	Medicare Supplement with Prescriptions and Dental	136
•	Medicare Supplement with Prescriptions, Dental, Vision & Hearing	141

Those participants electing vision, hearing and/or dental are required by the System's funding policy to pay the full cost of coverage for these benefits, and no liability is assumed by the plan for these benefits.

Survivor Health Care Coverage

Survivors of former employees or retirees remain eligible to participate in the plan and continue to be eligible to receive either the \$110 monthly subsidy or participate in the TRB-Sponsored Medicare Supplemental Plans, as long as they do not remarry.

C. Eligibility

Any member who is currently receiving a retirement or disability benefit is eligible to participate in the plan.

Credited Service

One month for each month of service as a teacher in Connecticut public schools, maximum 10 months for each school year. Ten months of credited service constitutes one year of Credited Service. Certain other types of teaching services, State employment, or wartime military service may be purchased prior to retirement if the member pays one-half the cost.

Normal Retirement

Age 60 with 20 years of Credited Service in Connecticut, or 35 years of Credited Service including at least 25 years of service in Connecticut.

Early Retirement

Age 55 with 20 years of Credited Service including 15 years of Connecticut service, or 25 years of Credited Service including 20 years of Connecticut service.

Proratable Retirement

Age 60 with 10 years of credited service

Disability Retirement

No service requirement if incurred in the performance of duty, and 5 years of Credited Service in Connecticut if not incurred in the performance of duty.

Termination of Employment

Ten or more years of Credited Service.

D. Contributions

State of Connecticut

Per Connecticut General Statutes Section 10-183z, contribution requirements of active employees and the State of Connecticut are approved, amended and certified by the State Teachers' Retirement Board and appropriated by the General Assembly. The State contributions are not currently actuarially funded. The State appropriates from the General Fund one third of the annual costs of the Plan. Administrative costs of the Plan are financed by the State. Based upon Chapter 167a, Subsection D of Section 10-183t of the Connecticut statutes, it is assumed the State will pay for any long-term shortfall arising from insufficient active member contributions.

Employer (School Districts)

School District employers are not required to make contributions to the plan.

Employees

Each member is required to contribute 1.25% of their annual salary up to \$500,000. Contributions in excess of \$500,000 will be credited to the Retiree Health Insurance Plan.

E. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, the Town reports no amounts for its proportionate share of the net OPEB liability, and related deferred outflows and inflows, due to the statutory requirement that the State pay 100% of the required contribution. The amount recognized by the Town as its proportionate share of the net OPEB liability, the related State support and the total portion of the net OPEB liability that was associated with the Town was as follows:

Town's proportionate share of the net OPEB liability	\$ -
State's proportionate share of the net OPEB liability associated	
with the Town	45,949
Total	\$ 45,949

The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as June 30, 2016. At June 30, 2018, the Town has no proportionate share of the net OPEB liability.

For the year ended June 30, 2018, the Town recognized OPEB expense and revenue of \$2,129 in Exhibit II for on-behalf amounts for the benefits provided by the State.

F. Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2016, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Health care costs trend rate	7.25% decreasing to 5.00% by 2022
Salary increases	3.25-6.50%, including inflation
Investment rate of return	3.56%, net of OPEB plan investment expense, including inflation
Year fund net position will	

be depleted

Mortality rates were based on the RPH-2014 White Collar table with employee and annuitant rates blended from ages 50 to 80, projected to the year 2020 using the BB improvement scale, and further adjusted to grade in increases (5% for females and 8% for males) over age 80. For disabled retirees, mortality rates were based on the RPH-2014 Disabled Mortality Table projected to 2017 using the BB improvement scale.

2018

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2010 - June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the GASB 74 valuation process. Several factors are considered in evaluating the long-term rate of return assumption, including the plan's current asset allocations and a log-normal distribution analysis using the best-estimate ranges of expected future real rates of return (expected return, net investment expense and inflation) for each major asset class. The long-term expected rate of return was determined by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years. The plan is 100% invested in U.S. Treasuries (Cash Equivalents) for which the expected 10-Year Geometric Real Rate of Return is (0.04%).

G. Discount Rate

The discount rate used to measure the total OPEB liability was 3.56%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current member contribution rate and that contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members. No future State contributions were assumed to be made. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be depleted in 2018 and, as a result, the Municipal Bond Index Rate was used in the determination.

H. Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate and the Discount Rate

The Town's proportionate share of the net OPEB liability is \$-0- and, therefore, the change in the health care cost trend rate or the discount rate would only impact the amount recorded by the State of Connecticut.

I. Other Information

Additional information is included in the required supplementary information section of the financial statements. A schedule of contributions is not presented as the Town has no obligation to contribute to the plan. Detailed information about the Connecticut State Teachers OPEB Plan fiduciary net position is available in the separately issued State of Connecticut Comprehensive Annual Financial Report at www.ct.gov.

16. PENSION AND OPEB COMBINING SCHEDULES

Pension and OPEB Combining Statement of Net Position

	_	Pension Trust Fund	_	Retiree Benefit Trust Fund	_	Total
Assets:						
Cash and cash equivalents Due from other funds Accounts receivable	\$	158	\$	191	\$	349

17. DEFINED CONTRIBUTION PLAN

The Town established a defined contribution plan effective January 31, 2007 to provide benefits at retirement to full-time, non-public safety, non-teacher and non-dispatcher hired after January 1, 2006 for both the Town and Board of Education. The Town's Finance Department in cooperation with the Human Resources Department administers this single employer defined contribution benefit plan. Employees are required to contribute 6% of covered salary, which are matched by employer contributions of 4% of covered salary. Employees are fully vested in employee contributions and are fully vested after five years in employer contributions.

The value of the plan at June 30, 2018 is \$9,772. There were 334 participants as of June 30, 2018. During the fiscal year ended June 30, 2018, employees contributed \$918 (exclusive of lump-sum conversion amounts) and the Town contributed a matching employer contribution of \$603. Covered payroll totaled \$15,301. Plan provisions and contribution requirements are determined by contract approval by the East Hartford Town Council and may be amended only with bargaining unit approvals.

18. COMMITMENTS AND CONTINGENCIES

The Town is located on the eastern bank of the Connecticut River, a major tributary, which outlets to Long Island Sound and the Atlantic Ocean. After extensive flooding caused by the Hurricane of 1938, the Army Corps of Engineers constructed a Flood Protection System (System) with the Town's assistance to protect a significant area of Town. The Town entered into an agreement with the Federal Government to own, operate and to maintain the System after its construction. The System consists of earthen levee, concrete floodwall, two closure structures, three storm water pump stations, storage pond and other associated infrastructure.

As a result of the Hurricane Katrina natural disaster in 2005, the Army Corps of Engineers reviewed their policies and standards which ultimately resulted in the creation of a new interim policy for flood protection systems. The heightened emphasis on maintenance and the new interim policy as well as the Federal Emergency Management Agency (FEMA) Accreditation process resulted in the Town needing to address and repair deficiencies in an effort to insure that the System provides the appropriate level of protection.

In response to the Army Corps Engineer's directives and the findings of the FEMA accreditation study, the Town since 2007, has been systematically addressing necessary repairs and corrections to the System in order to improve stability and integrity of the System. The repairs include but are not limited to the following: the installation of sheet pile cut-off walls, soil bentonite cut-of wall, replacement of a failing timber bulkhead with a new steel sheeting bulkhead, replacement of a concrete retaining wall and various repairs to the three storm water pump stations.

The identified repairs included but are not limited to the following: the renovation of the two closure structures, repair of the Meadow Hill Outfall box culvert, renovations of the storm water pump stations including electrical systems as well as new pumps, removal of sediment from the Meadow Hill storage pond, acquisition of various property rights for the System and replacement of the toe drain system to assist in the control of seepage within the levee structure. With the exception of the Meadow Hill Outfall box culvert, additional work and repairs remains to be completed.

The Town voters approved two individual \$7,000 bond authorizations in November 2007 and November 2011, and \$5,000 in November 2016, to fund various repairs in order to maintain the Army Corps of Engineers active status as it relates to Public Law 84-99 as well as FEMA accreditation for the System. The Town also successfully secured Connecticut Department of Energy and Environmental Protection (CT DEEP) grant reimbursements for a total amount of \$7,000 for the rehabilitation of the System.

To date the Town has expended a majority of the \$21,000 on required System improvements, including the two \$7,000 Town voter bond authorizations and the \$7,000 CT DEEP grant reimbursement. The remaining funds have been programmed to complete required repairs, which are currently in the design phase.

Public Works continues to develop an overall list of repairs and operational improvements for the System. The total cost of the rehabilitation of the System has been estimated at \$28,000 (in 2014 dollars) but final costs will not be known until all of the rehabilitation work is designed and construction is completed. All construction projects are being competitively bid and awarded. The Town is actively pursuing funding assistance both at the State and Federal levels to complete the remaining elements of the rehabilitation project which are estimated to cost \$7,000. The recent federal water resources development act legislation (WRDA) provides \$1,000 in funding towards a \$2,000 study of the system to identify projects necessary to finalize the accreditation of the system. The WRDA study would assist the town in completing the project outside of the federal awards previously mentioned.

Landfill Remediation

Prior to the landfill closing, citizens fishing in the Hockanum River reported partially buried drums along the river south of the eastern landform. The drums and their contents were removed. Subsequently, two pockets of contamination above acceptable levels have been identified. Additional testing and characterization have been conducted to determine the scope of the remediation project. Meetings were then held with CT DEEP as well as the United States Environmental Protection Agency for the purpose of determining the extent of contamination in the soil, clean-up standards as well as to define a remediation plan.

The Town will provide a remediation plan based on CT DEEP's required standards. Once the plan is approved by the state and federal agencies, the Town will proceed with the design and associated land use permits. The Town will competitively bid the remediation work to be completed. Based on the estimated cost of the remediation provided to the Town by its environmental engineering firm, management does not believe that the costs of remediation will have a material effect on the financial statements.

The remediation is estimated to be around \$3,000 but it's difficult to ascertain until DEEP provides a remediation standard to meet. There are conflicting positions within DEEP on this and they are not speaking with one voice.

19. LITIGATION

During the normal course of business, claims against the Town arise from personal injury suits, contract disputes, property damage claims and other normal type claims related to a municipality.

It is the opinion of the Town Attorney that the ultimate liability of the Town for these cases currently pending will not have a material adverse effect upon the Town's financial position.

During 2009, a personal property settlement was assessed against the Town by a manufacturing company. The settlement stipulated that the Town refund personal property taxes in the amount of \$4,000 in 36 biannual credits commencing with the property tax bills due July 1, 2009, and ending with the property tax bills due January 1, 2027. The first 35 credits each will be in the amount of \$113. The final credit, to be provided as of January 1, 2027, will be in the amount of \$63.

20. PRIOR PERIOD ADJUSTMENT AND RESTATEMENT

The following restatements were recorded to the beginning net position of the governmental activities as a result of implementation of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions:

Governmental Activities:

Net position at June 30, 2017, as previously reported	\$ (122,270)
Adjustments: Eliminate net OPEB asset reported per GASB No. 45 Record total OPEB liability per GASB No. 75	 70,682 (145,604)
Net Position at July 1, 2017, as Restated	\$ (197,192)

21. SUBSEQUENT EVENT

On October 17, 2018, the Town issued \$14,600 in general obligation bonds that mature serially through October 15, 2028 and bear interest between 3% and 5%.

Notes to Schedule

Valuation date: July 1, 2017 Measurement date: June 30, 2018

Actuarially determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported

Methods and assumptions used to determine contribution rates:

Actuarial cost method Entry age normal cost method

Amortization method Level dollar of payroll, 3.25% (previously 3.25%) annual increase

Police

Remaining amortization period 26 years remaining as of July 1, 2017, closed

Asset valuation method 5-year smoothed market

Inflation 2.00%

Salary increases (General, Dispatcher and Paraprofessions) 2.50% - 9.00% Salary increases (Police) 3.00% - 20.00% Salary increases (Fire) 4.50% - 22.00%

Investment rate of return 7.65% (previously, 7.90%)

Retirement age - General Employees - Town

and Board of Education

Retirement age - General Employees - Town

and Board of Education

Mortality - Males

Mortality - Females

Retirement age - Paraprofessional Employees

Retirement age - Dispatcher Employees

Retirement age - Police Officers and Firefighters

RP-2000 Combined Healthy Mortality Table with Blue Collar Adjustment, projected 16 years (previously 14) with Scale BB

The earliest of (1) attainment of age 65 and completion of 5 years of service; (2) 25 years of service; or (3) the Rule of 75

RP-2000 Combined Healthy Mortality Table, projected 16 years (previously 14) with Scale BB

Hired prior to March 1, 1983 - later of age 62 and 8 years of service

Hired on or after March 1, 1983 - later of age 65 and 10 years of service or age 62 and completion of 25 years of service if earlier

The earliest of (1) attainment of age 65 and completion of 10 years of service; (2) attainment of age 62 and completion of 25 years of service; or (3) the Rule of 85

25 years of service regardless of age, or mandatory retirement at age 65 with the completion of 10 years of service for Fire and 15 years of service for

^{*} The amortization period has been reset as of July 1, 2013.

⁽¹⁾ Actuarially Determined Contributions prior to fiscal year ending June 30, 2017 is based on the Annual Required Contribution (ARC) calculated in accordance with GASB No. 45

Notes to Schedule

Valuation date: July 1, 2017
Measurement date: June 30, 2018

Actuarially determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported

Methods and assumptions used to determine contribution rates:

Actuarial cost method Entry age normal

Amortization method Level dollar of payroll, 3.50% annual increase Remaining amortization period 19 years remaining as of July 1, 2017, closed

Asset valuation method Market value Inflation/Salary Increase 2.60%

Interest 3.87% (prior 3.58%)

Mortality - Teachers and School Administrators RP-2014 Adjusted to 2006 Total Dataset Mortality Table projected to valuation date with Scale MP-2017.

and BOE Non-Certified and Town

Mortality - Police and Fire RP-2014 Adjusted to 2006 Blue Collar Mortality Table projected to valuation date with Scale MP-2017.

^{*} The amortization period has been reset as of July 1, 2013.

Plan fiduciary net position as a percentage of the total OPEB liability		1.79%

Notes to Schedule

Changes in benefit terms Changes of assumptions

None

The discount rate was increased from 3.01% to 3.56% to reflect the change in the Municipal Bond Index Rate.

Changes were made to the assumed initial per capita health care costs, rates of health care inflation used to project the per capita costs, and the rates of Plan participation based upon recent experience and current expectations.

As a result of the experience study for the five-year period ended June 30, 2015, the payroll growth rate assumption was decreased from 3.75% to 3.25% to reflect the decrease in the rate of inflation and the decrease in the rate of real wage increase. Last, the salary growth assumption, the payroll growth rate, the rates of withdrawal, the rates of retirement, the rates of mortality, and the rates of disability incidence were adjusted based upon the experience study's findings and their adoption by the Board.

Actuarial cost method Entry age

Amortization method Level percent of payroll

Remaining amortization period 30 years, open

Asset valuation method Market value of assets

Investment rate of return 4.25%, net of investment related expense including price inflation

^{*} This schedule is intended to show information for ten years. Additional years' information will be displayed as it becomes available.

Combining and Individual Fund Statements and Schedules

GENERAL FUND

The General Fund is the principal fund of the Town and is used to account for all activities of the Town not included in other specific funds. The General Fund accounts for the normal recurring activities of the Town (i.e., police, fire, education, recreation, public works, general government, etc.). These activities are funded principally by property taxes on individuals and businesses, and grants from other governmental units.

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other government units, on a cost-reimbursement basis.

Health Benefits - A fund used to pay health insurance claims and to purchase administrative services and stop loss insurance for the health care plans. Both the Town and the Board of Education pay this fund for health insurance.

Workers' Compensation - Accounts for the receipt of General Fund contributions to fund Town and Board of Education incurred Workers' Compensation claims. Contribution amounts are based on projections from an actuarial valuation.

General Liability - To account for the receipt of General Fund contributions to fund general and auto liability claims.

Statistical Section Information

The objectives of statistical section information are to provide financial statement users with additional historical perspective, context and detail to assist in using the information in the financial statements, notes to financial statements and required supplementary information to understand and assess economic condition.

Statistical section information is presented in the following categories:

- Financial trends information is intended to assist users in understanding and assessing how financial position has changed over time.
- Revenue capacity information is intended to assist users in understanding and assessing the factors affecting the ability to generate own-source revenues (property taxes, charges for services, etc.).
- Debt capacity information is intended to assist users in understanding and assessing debt burden and the ability to issue additional debt.
- Demographic and economic information is intended 1) to assist users in understanding the socioeconomic environment and 2) to provide information that facilitates comparisons of financial statement information over time and among governments.
- Operating information is intended to provide contextual information about operations and resources to assist readers in using financial statement information to understand and assess economic condition.

The accompanying tables are presented in the above order. Refer to the Table of Contents for applicable page number locations.

Sources: Unless otherwise noted, the information in the tables is derived from the comprehensive annual financial reports for the relevant year.
